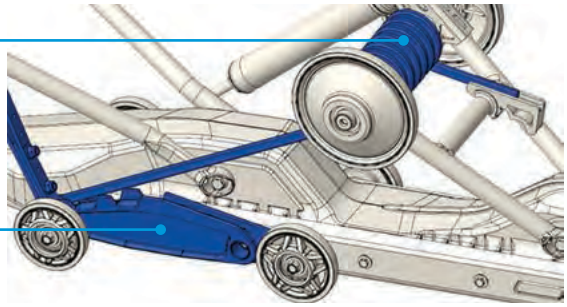
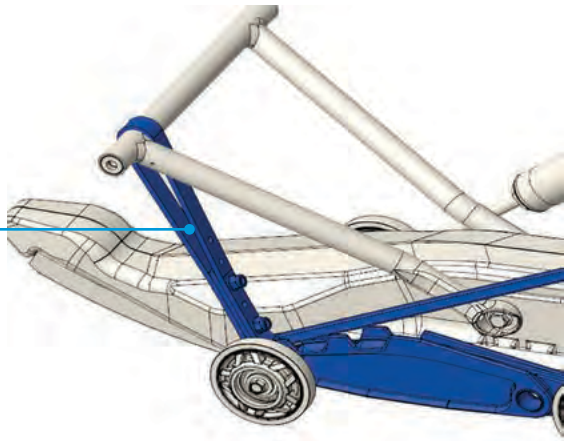
SNOW BIKE CONVERSION KITS SPECS

SMOOTHER SUSPENSION



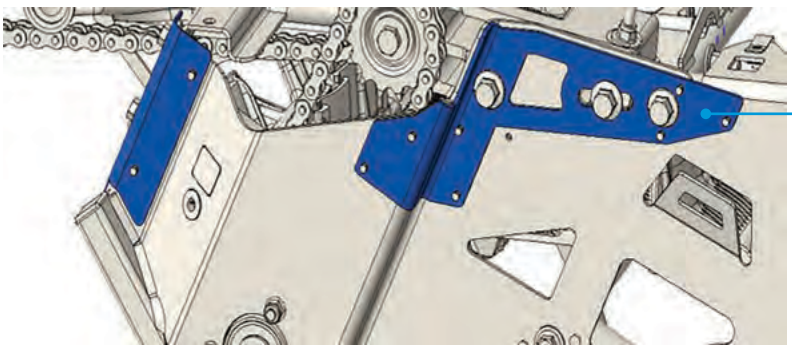
REDESIGNED A-ARM

- Increases suspension travel and sag
- Enhances rider control in rough trail conditions
- Reduces peak pressure and feedback on the ski
- Optimize shock action



REVISED SPRING RATE

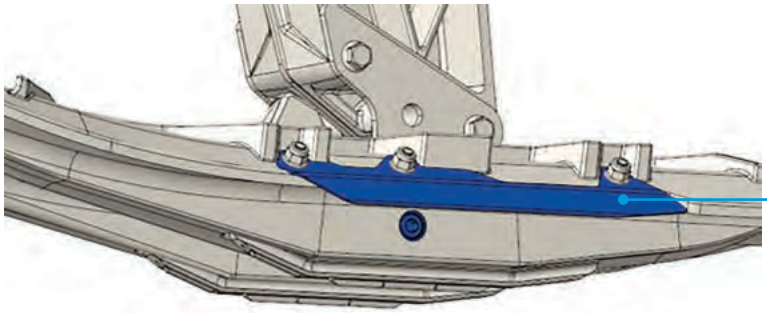
NEW SPRING CAM



REDESIGNED LIMITER STRAP

- Better durability – Adjustable to set ski pressure and vehicle transfer

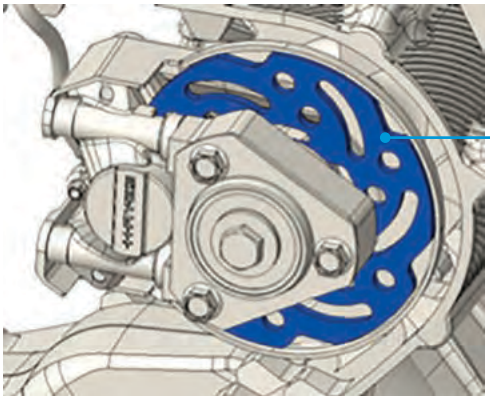
SIDE PANEL REINFORCEMENT



RIVETED REINFORCEMENT ON FRONT MOUNTING POINT AND CHAIN TENSIONER REGION

- Improve durability and increase panel rigidity. Dissipate stress along the entire panel

SNOW BIKE CONVERSION KITS SPECS

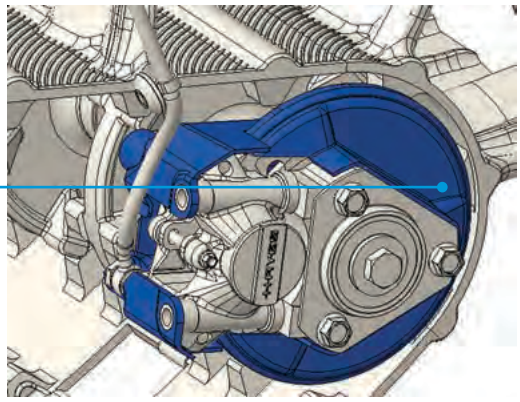


FRONT SKI

REDESIGNED OUTSIDE RUNNERS & ALUMINUM SKI PIVOT

- Thinner material for more aggressive ski behavior. Lighter than previous year

CONSISTENT BRAKE SYSTEM



RESIZED BRAKE ROTOR & NEW CUTOUT DESIGN

- Better even brake pad pressure allowing consistent breaking in all snow conditions

POLYMER BRAKE SHIELD ENCLOSING BRAKE SYSTEM

- Isolate from snow contact to provide full brake efficiency in any conditions

NEW GRAPHICS

SNOW BIKE CONVERSION KITS

Camso's aftermarket solution for powersports enthusiasts looking to convert their off-road motorcycle to what the industry references a "Snow Bike". Camso DTS 129

DTS FOR DIRT-TO-SNOW

- 129-inch for track length feature. Camso determined this length is the optimum length for deep snow performance and stable and precise handling for packed snow and trail riding.

DTS 129 WILL ANSWER THE FOLLOWING MARKET DEMANDS:

- Deep snow high performance; traction, flotation and overall ride feeling.
- On-trail stable and predictable handling.
- Optimized system-to-vehicle integration for a more natural drive feeling both on-and-off trail.
- An attractive retail price for a high performance product.
- Camso DTS 129 will be offered with a two-year limited warranty.

DTS SNOW BIKE WHEEL KIT

- Easily move bike from your garage to the trailer

Description	WPS #	List
DTS Snowbike Wheel Kit	**7200-00-9050**	**$329.00**

DTS SNOW BIKE KIT NEW

- Availible for dealer showroom display.
- Fit Kit availible for purchase later.
- Track and ski only

Description	WPS #	List
DTS 129 (Kit only, no fit kit)	**J1A1-00-7597**	**$4600.00**

SNOW BIKE CONVERSION KITS

The 2020 MotoTrax kits are ready to go!
Order your kits now and be ready for the early snow falls.

2020 ADVANCEMENTS & FEATURES

- EASY TRACK AND CHAIN ADJUSTMENT
- PREMIUM DRIVE CHAINS
- GREASE ZERKS ADDED TO CRUCIAL MAINTENANCE POINTS
- FULLY GREASABLE SKID
- EASY INSTALLATION AND MAINTENANCE
- UNIVERSAL MOUNTING SYSTEM

IDT – INTELLIGENT DAMPING TECHNOLOGY
Absorbs small bumps and increases suspension travel, further enhancing the dirt bike feel. This springless strut provides ideal damping characteristics when you need it without compromising deep snow and steep terrain performance. Standard on all systems.

MOTOLINK EVO
The innovative use of rising rate suspension in our Motolink design is the most obvious influence of our dirt bike roots. Utilizing a single shock, single swingarm and linkage to maintain the stock balance of your bike. From jumping to railing corners or charging through rough terrain, it just feels right. Mounted to the front of the skid, it's improved performance features stand out from the competition the moment you ride it.

IDS – INTELLIGENT DAMPING SYSTEM
New for 2020, the IDS comes standard on MTX Factory Edition models. It provides superior rail tip control under hard acceleration, dramatically reducing rail tip dive. The fully tunable air shock provides maximum adjustability for various conditions, further complimenting our rising rate suspension technology.

REAR IDLER WHEELS
8" rear idler wheels with 6205 center bearing. Solid rear idler wheels come standard on the Enduro 120 and Mountain 129 models. The MTX Factory Edition models utilize spoked billet aluminum wheels for decreased weight and increased response.

EDS – ELASTOMER DAMPING TECHNOLOGY
All new for 2020, the EDS comes standard on the Enduro 120 and Mountain 129 models. Simplifying the same technological aspects of the IDS, the EDS provides substantial increases in overall durability and performance of our Enduro and Mountain systems. More damping capability and more natural, fluid movement provides significant reduction in rail tip dive under acceleration and gives you the factory deel without paying a premium.

BRAKE OPTIONS
MotoTrax was the first to offer a fully enclosed brake system in snow bike. Our new mounting system makes maintenance a breeze. The MTX models come with sintered metallic brake pads while the Enduro and Mountain have SC2 organic brake pads. Rotor guard design has drainage prots to reduce icing.

LATERAL ARTICULATION
All MotoTrax systems have an industrial heim ball joint incorporated into the swingarm that allows the skid to pivot. The pivot damper spindles are designed to increase stability and rider control giving you a more planted, consistent and agile feeling while riding on the track, in the backcountry or on the trail.

SNOW BIKE CONVERSION KITS

MOTOTRAX

SPECIFICATIONS

Suspension Travel	11" front, 14" rear
IDT - Intelligent Damping Technology	Performance strut, adjustable damping
IDS - Intelligent Damping System	Fully tunable air shock for rear arm, standard on all MTX Factory edition systems
EDS - Elastomer Damping System	Elastomer damping technology, standard on all Enduro and Mountain Systems.
Ski Frame	Carve Ski with ForkSafe ski mount, patent pending
Bushings	Delrin self lubricating and oil rubbed bronze
Brake System	Willwood single piston floating caliper coupled with Galfer stainless steel brake line
Brake Rotor	5.25" stainless steel, developed to shed snow and heat
Stock Gearing	16 tooth inner hub, 13 tooth outer, 16 tooth drivershaft
Rear Idler Size	8" with 6205 center bearing
Track Drivers	7 tooth, 2.86 pitch
Track	Custom Challenger Hybrid with center ports and no outside lugs, 120"-129", 12.5" width, 2.5" center lug, 2" outer lug, 2.86 pitch

	ENDURO 120	MOUNTAIN 129	MTX 120 / 129
Shock	Fox IFP	Fox IFP	Fox RC2
Weight (approx.)	110 lbs	115 lbs	105 lbs / 110 lbs
Preload Adjustment	YES	YES	YES
High Speed Compression Damping	YES	YES	24 Clicks
Low Speed Compression Damping	YES	YES	24 Clicks
Rebound Damping	YES	YES	24 Clicks
Brake Pads	SC2 organic	SC2 organic	Sintered Metallic
Chains	Regina X-Ring	Regina X-Ring	RK 520 MXU
Driveshaft Sprocket	16T, Standard	16T, Standard	16T, Lightweight
Rear Idler Wheels	8" solid	8" solid	8" spoked billet

Ski	MotoTrax Carve Ski
Width	9.61"
Length	43.44"
Keels	1-center, 2-15 degrees angle out, real carbide runners
Center Keel Depth	2.75"
Outer Keel Depth	1.75"
Material	Heavy Duty UHMW
Weight	10.5 lbs

SNOW BIKE CONVERSION KITS

BOTH BIKE KIT AND FIT KIT REQUIRED FOR ALL APPLICATIONS

SEE PAGE 11 FOR FIT KITS

ENDURO 120 KIT NEW

- No Compromise.
- Do you want to boondock, and explore the snow-covered hills? Then the 120 is for you! Designed to float powder, glide on trails and go virtually anywhere. Tailored for all around performance, the Enduro 120 is our most versatile package at our most affordable price.
- Fox IFP Shock - MotoLink EVO Equipped

MOUNTAIN 129 KIT NEW

- Conquer Everything.
- Going far in the backcountry just became your reality! The “Mountain” is the necessary tool to take your riding from ordinary to extra-ordinary. Climb the steepest chutes, side hill jagged peaks and float through the deepest powder. The mountains are calling.
- Fox IFP Shock - MotoLink EVO Equipped

MTX 120 FACTORY EDITION KIT NEW

- The Pinnacle of Snow Bikes.
- Are you ready for the next level? The MTX Factory Edition systems incorporate all of our latest developments and technology right out of the box. Lightweight and durable, the MTX is in a class of it’s own. Equipped with the all-new Intelligent Damping System (IDS), the MTX is the best snow bike performance package right out of the box!
- Fox RC2 Shock - Premium Upgrades

MTX 129 FACTORY EDITION KIT NEW

- The Pinnacle of Snow Bikes.
- Are you ready for the next level? The MTX Factory Edition systems incorporate all of our latest developments and technology right out of the box. Lightweight and durable, the MTX is in a class of it’s own. Equipped with the all-new Intelligent Damping System (IDS), the MTX is the best snow bike performance package right out of the box!
- Fox RC2 Shock - Premium Upgrades

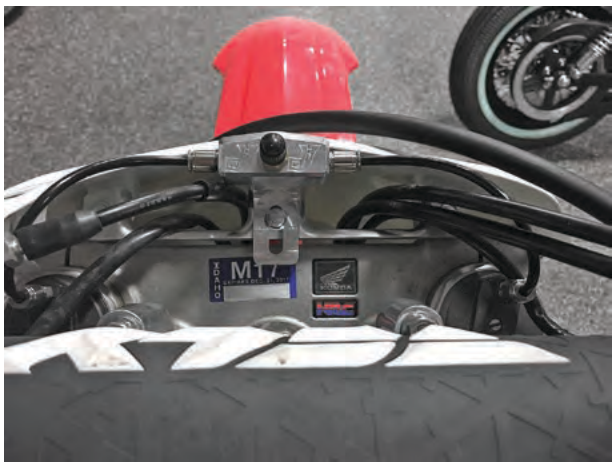
SNOWBIKE BOTTOMING KIT

NEW



AIRPRO

Standard snowbike setups weigh 65 to 85 pounds more than a stock dirt bike (BEFORE you add racks, packed snow, spare gas, etc), which can lead to violent bottoming and bent lower fork tubes. The AirPro allows riders to add 8-15 PSI to a spring fork, significantly increasing bottoming resistance and ride height. This accessory provides a low cost option for riders to achieve great results while using independently, or in conjunction with a front fork revalve/respring (depending on rider skill level).

- Add 8-15 PSI to significantly improve bottoming resistance and increase ride height
- Fraction of the cost of re-spring/re-valve
- Quick and easy installation
- For going back to the track or trails, simply release air from the schrader valve to convert to stock

ACERBIS

AUXILIARY TANK

Auxiliary fuel tank mounts to all kinds of handlebars, both 7/8" and 1-1/8". Suitable for minis, trials bikes, full size bikes, and anywhere else a little extra fuel is needed. Includes siphon kit that connects the handlebar tank to the main fuel tank and automatically siphons fuel while the bike is being ridden. With this design, the handlebar tank empties first before the main tank. Does not interfere with headlight, handguards, etc. Holds 0.6 gallons.

DURA FLEX REVERSE - COMPATIBLE SCRATCHERS

BETWEEN THE LINES Designs

ICE SCRATCHER

WPS#	List
15-64290	**$52.95**

PERFORMANCE ICE SCRATCHERS

- The only ice scratcher that uses a replaceable carbide tip
- Uses “official” custom carbide studs built by Woody’s
- Full stainless wire rope and ends for lifetime use
- Designed to be run down at all times, but can be mounted on the rails if needed
- Replaceable and affordable carbide scratcher tip
- Large mounting base to avoid rail wear
- Long version for bulkhead, A-arm, or ski mounting to aid in cooling
- Long version recommended as a rail mount for all mountain sleds with 3” and taller tracks to aid in cooling
- Short version recommended for rail mounting on tracks under 3” lug height

LED VISION HP

The LED Vision HP headlight features an innovative design that makes it particularly attractive. The LED Vision HP's 10 bright white LED bulbs ensure visibility at night and high illumination while using low power consumption. DOT-ECE-SAE-TUV approved, the LED Vision HP is made of polypropylene and comes complete with universal mounting strap. LEDs can be used as turn signals, just for show, or however you want to wire them.

- The LEDs do not heat up after prolonged use.
- 12V 35/35W H4 bulb with LEDs
- Universal fitment with anti-vibration rubber straps.
- Position of mounting points allow ample room for brake line/ cable
- Total wattage is 50.

TRAIL TECH® VOYAGER PRO

TACHBAR SCREEN
"EVERYBODY LOVES THE TACH GRAPH!"
The tach screen is dominated by a large animated tachometer bar graph. It also displays ambient temperature, trip distance and current speed.

MAPS
Color maps with topo and hillshading. Supports tracks, routes, waypoints. Plan and record entire trail systems.

MUSIC
You can control the song playing on your phone, change headset volume levels, change the music source, and access phone dialing, call history and messaging features. Compatible with Sena headsets.

ACERBIS

X-FACTOR HANDGUARDS

The X-Factor is an all-new handguard made for those looking for the ultimate in style and protection. Built for extreme riding conditions, the X-Factor features an oversized, 35mm, black anodized bar, with a 'C' shape design, which offers a higher level of impact resistance than standard aluminum bars. Comes complete with universal X-Factor mounting hardware. The dual-injected polypropylene shield features a carbon fiber like texture, three-bolt removal system for easy access to the bar, and a larger 150mm outer diameter that offers more coverage from roost, debris, and extreme conditions.

RevArc

SNOW BIKE DOLLY

RevArc introduces the industry's first Snow Bike Dolly. Moving your Snow Bike anywhere you want is now easy!

Benefits:

- Less than a minute to install onto your Snow Bike
- Zero turn radius means you can move Snow Bike easily and safely
- Superior option to ski wheel kits at a lower price
- Lightweight, strong 1 1/4" tube steel, limited lifetime warranty
- Weighs ~25lbs
- Ships in ~30" box
- 10 minute assembly
- Black, tubeless tires

WPS #	List
61-0628	$299.95

SNOW BIKE RAMP

The fastest, safest way to load your Snow Bike!

- Traction control bar let's you load without track spin from any surface (snow/ice/ pavement/gravel)
- Crossbars with blue HDPE provide frictionless travel for your front ski
- Textured left ramp gives you sure footing to walk your snow bike onto truck/trailer
- Works great for dirt bikes as well
- Lightweight
- Folds for storage
- Lifetime warranty

WPS #	List
61-0627	$424.99

Specs:

- TIG welded, airplane grade aluminum ~40lbs
- Ramps 90" long x 18" wide (left and right side)
- 36" traction control bar
- Folds to 90" x 18" x 6"
- Safety strap doubles as "handle" for easy carrying

SP1 ONE PRODUCTS

SNOW BIKE DOLLY

NEW

- 2pc design makes transport of snow bikes simple
- Mount ski dolly only to make snow bike steerable & drivable on any surface, great for loading/unloading on trailers
- Mount ski dolly & track dolly to push snow bike around by hand, great for moving around shop/ garage/lot
- Premium quality bearings & wheels
- Tie-down strap for security over ski
- Max speed: 5 mph
- Ski Fitting Rails: "8.25 outside width, "6.25 inside width, "3.15 height

SP1 Snow Bike Dolly	27-32013	$299.95

Moto Ramp PRO

- Bi-Fold style universal loading ramp
- Features Caliber's LowPro Grip Glides allowing ski to glide and track to grip while loading/ unloading
- Includes carrying handle and Caliber's Retrax Retractable Strap
- Designed to be wide enough to walk beside snow bike while loading/ unloading
- 94" long x 40" wide, weighs less than 55 lbs, 1500lb capacity
- Accessorize with Caliber's Traction Bar for increased traction on slick surfaces (WPS# 42-5025)
- Retrax Accessory Strap required for split ramp use (WPS# 29-0011)

WPS#	List
42-5017	$399.95

Ramp PRO HD NEW

- Heavy Duty ramp provides a safe and effective loading solution for most snowmobiles, atv/ utv, snow bikes, dirtbikes, motorcycels, golf carts
- Removable center section with inverted hinges allows users to make ramp more narrow (28" wide) for loading snow bikes, dirt bikes, and enduro type motorcycles
- Additional strap mounting locations allow users to secure the ramp's outer portions when using to load full sized utv's (50+") Caliber Retrax Straps recommended(WPS# 29-0010)
- 11.5" LowPro GripGlides provide additional safety and traction for walking and tires
- 90" long and 52" wide for safe effective loading angle
- Includes Caliber's lifetime warranty
- 3,000lb rating, outside portions rated at 1,250lbs each
- Ramp Grips may be added as an accessory for additional traction on middle section of ramp
- Retrax Accessory Strap required for split ramp use

NOT INCLUDED IN FREE FREIGHT PROGRAM, MAY BE SUBJECT TO OVERSIZED FREIGHT CHARGES

ThermaCELL®

REMOTE-CONTROLLED HEATED INSOLE

Even in sub-freezing temperatures, warming comfort for your feet is just a touch of a button away. Simply use ThermaCELL's wireless remote to change the temperature without removing your boots or shoes. Three settings enable you to adjust the heat output up to seven feet away. Select from High and Medium heat levels or choose the No Heat setting to conserve battery life when active or indoors.

- Regulated heater: Choose from three temperature settings: High (111° F),Medium (100° F) or No Heat
- Internal LiPo battery: 3.7V, 1,000 mAh battery will recharge more than 500 times
- Quick charge time: Wall plug and car charger (sold separately)provide a full charge in 4 hours or less
- Soft & durabel design: Made of high-quality materials for years of shock absorbing comfort
- Car charger: Recharge your insoles on-the-go. The ThermaCELL Car Charger plugs into your car's power outlet and recharges both insoles at once.

PROFLEX INSOLE

ThermaCELL ProFLEX Heated Insoles are the latest innovation in cold weather comfort. With the same regulated heat as the Original, ProFLEX insoles include removable, rechargeable batteries so you no longer need to take out insoles to recharge. Simply swap out the battery packs to extend the heat as needed. To ensure your feet last as long as the warmth, the ProFLEX insoles are extra flexible and padded.

- Flexible sole: Polyurethane foam construction provides added comfort and mobility.
- Removable battery: Insole battery packs allow you to charge batteries without removing insoles. Keep a spare set charged for all day warmth.
- One-of-a-kind: The only heated insole on the market with a wireless remote control and rechargeable, removable batteries
- Advanced comfort: Layered foam construction provides all-day comfort and shape retention
- Superior material: Breathable polyurethane foam efficiently transfers heat while providing excellent shock absorbency
- Highly water resistant: Proprietary manufacturing process protects electronics from the elements
- USB charging: Charge batteries using included wall charger or any USB port
- Car charger: Recharge your insoles on-the-go. The ThermaCELL Car Charger plugs into your car's power outlet and recharges both insoles at once.

3+ AVALANCHE TRANSCEIVER

ORTOVOX

- Utilizes the latest in transceiver technology
- The 3+ beacon is a 3 antenna device which, for the first time, can add to your own safety
- Now includes RECCO® Advanced Rescue Technology
- RECCO® features a reflector inside the transceiver which helps rescuers find the victim quicker and easier. Used by over 700 ski areas and rescue teams around the world
- The intelligent position recognition analyzes the position of the antennas and automatically switches to the most optimal transmission antenna; there is no longer any such thing as to be in the worst position
- The circular display guides you to concentrate on the most important things: the distance to and the relative position of the buried victim. Always align the device with the arrow, the solid arrow and the central distance value keep you going in the right direction
- The patented representation as a circle shows you at a glance if you are getting closer to the signal or moving away. This allows you to very effectively determine the distance to the buried victim and limit the areas to be probed
- The 3+ allows you to maintain an overview with multiple burials. The number of victims is displayed and as soon as you have found the first burial, you can blend out their signal with the pin key. The victim is displayed as pinned and you can continue immediately with your search
- Fully updatable, product development is an ongoing process, to ensure you benefit from the latest in avalanche searching technology, Ortovox has made the 3+ fully upgradable so you will always have the most up-to-date transceiver
- Displays number of buried victims, 3 and more
- This transceiver is the most simple beacon to use due to clear control elements, precise real time display with directional arrows and circle display
- Lighted display for night searches
- Switchover in case of a follow-up avalanche and clear, optimized search acoustics
- Rubberized housing for protection and ergonomics providing increased durability
- Maximum circular range up to 43 meters and 40 meter search lane width

62-46601	$310.00

RECCO® ADVANCED RESCUE TECHNOLOGY

ZOOM+ AVALANCHE TRANSCEIVER

The ZOOM combines the simplest handling with the latest technology and the most advanced design. Reduced to two functional buttons, the ZOOM concentrates on intuitive usability. The focus on the CLEARLY DESIGNED LED DISPLAY is on the on / off switches and the switch between transmitting and searching. Distances, directional arrows and information about several avalanche victims guide you in the FASTEST way to the refined search area, with the INTUITIVE search acoustics making victims easier to locate.

- LED display clearly guides the user through the transeiver operations, from send to search and then to the victim
- The integrated Smart-Antenna Technology analyzes the position of the antennas and automatically switches to the most optimal transmission antenna. The result: 43% MORE RANGE in the worst reception area. The patented Smart Antenna Technology is compatible with all avalanche transceivers; there is no longer any such thing as to be in the worst position
- The latest, digital 3-ANTENNA TECHNOLOGY with a motion sensor. This is required for SWITCHING OVER IN CASE OF A FOLLOW-UP AVALANCHE. If the transmitter registers no movement for more than 120 seconds while searching, it automatically switches back to transmission mode. Rescuers are thereby protected from follow-up avalanches at all times.
- Now includes RECCO® Advanced Rescue Technology
- RECCO® features a reflector inside the transceiver which helps rescuers find the victim quicker and easier. Used by over 700 ski areas and rescue teams around the world

ORTOVOX

MOUNTAIN SAFETY

Our company's **ROOTS** are in emergency products. **WE STAND FOR MAXIMUM PROTECTION, SIMPLICITY, RELIABILITY** and **INDEFATIGABLE PIONEERING SPIRIT**. Over the past 37 years, ORTOVOX has revolution-ized the avalanche transceiver market and enriched it with continual new technologies: in 1980 we presented the first avalanche transceiver that was able to search and transmit on the two predominating frequencies at the time. In 1989 we introduced the F1 – the first device to enable **VISUAL SEARCHING**. In the following decades, **LED**s became the industry standard. Optical searching reached its **CLIMAX** in 2007 with the S1, with the **RELATIVE POSITION** of buried victims indicated on a large display. Just three years later we invented the **SMART-ANTENNA TECHNOLOGY™** which for the first time allows transmission on two antennas. All of them are innovations that can save lives in an emergency. **GERMAN INNOVATIONS** completely developed and produced by ORTOVOX. As of 2013 we now offer the **COMPLETE SAFETY SET- UP.** In 2013 we integrated the first removable ABS system into our airbag backpacks and then, in 2016, the next revolution arrived: from now on AVABAG stands for the extremely **LIGHT** and **COMPACT AVALANCHE AIRBAG SYSTEM**.

AVABAG. EXTREMELY REDUCED WEIGHT WITH THE BEST POSSIBLE PROTECTION.

AVABAG is the **EXTREMELY LIGHT AIRBAG SYSTEM**. Thanks to **INNOVATIVE AIRBAG PROCESSING TECHNOLOGY**, whereby the material is processed for the first time ever **WITHOUT SEWING** or **ADDITIONAL SEALING**, and thanks to the drastically **REDUCED VENTURI UNIT**, we have managed to achieve a sensational system weight of **1lb. 8.3 oz. / 690 g***. In this sense, simplicity means a reduction in components, lower weight and the highest level of reliability.

* +/- 4% due to production and material fluctuations.

AVABAG. SENSATIONALLY COMPACT WITH THE BEST POSSIBLE PROTECTION.

COMPACT
The activation unit sits inside the venturi, creating a **COMPLETELY SEALED, ROBUST SYSTEM** that functions without electricity. Dirt, ice and corrosion can all be excluded.

EFFECTIVE
The **INNOVATIVE WELDING TECHNOLOGY** used to make the airbags ensures a compact pack size while **IMPROVING ITS RESTISTANCE to TEARING AND LEAKS**.

REMOVABLE
The AVABAG unit is **QUICK** and easy **TO UPGRADE** and is **COMPATIBLE** with all **ORTOVOX AVABAG** backpacks.

AVABAG. FULLY RELEASE-OPTIMIZED THANKS TO ERGONOMIC GRIP.

NON-SLIP
The **ERGONOMIC FORM** in **360° DESIGN** combined with hard edges and a non-slip surface enables **EASIEST RELEASE** with all types of gloves and **RELEASE GRIPS** for both left and right-handed users.

ADJUSTABLE
Two **LENGTH POSITIONS** guarantee individual adjustability. What's more, the **FRONT-FACING GRIP** improves ease of access, even in the case of awkward falls.

STORABLE
On the lift the **GRIP** can be stored **QUICKLY** and **SAFELY** in the zipped compartment, without compromising **WEAR COMFORT.**

UNLIMITED TRAINING
Releases can be practiced AS **OFTEN AS REQUIRED** without an installed cartridge to ensure that the wearer is able to react appropriately in a real situation. The AVABAG system can then be re-activated by using the **PRE-TENSION TOOL**.

BURIAL DESPITE AIRBAG
Together with his team of experts, the Canadian avalanche researcher Pascal Haegeli analyzed 106 avalanche accidents that occurred with airbag users. The result was frightening – one in eight airbag users (12%) did not manage to activate the system during an avalanche. Regular training and our release-optimized grip can help to reduce this number in the future.

ORTOVOX

CROSS RIDER 18 AVABAG

Thanks to its extremely lightweight AVABAG airbag system, this new member of the AVABAG family is ORTOVOX's lightest avalanche airbag yet. Its close fit and foamed back means it sits perfectly against the body and ensures maximum freedom of movement on any ride. Quick front access to the main compartment or the separate safety compartment keeps your gear organized and always at the ready.

AVABAG
FREE RIDER 20 S

For this **EXTREMELY LIGHT AIRBAG SYSTEM** we have developed a freerider backpack that provides the HIGHEST **LEVEL OF PROTECTION.** The redevelopment of the **SPS FLEX BACK PROTECTOR** is the main focus, which combines the back system and protector into a **FLEXIBLE UNIT.** Built from **EIGHT PADS**, which remain comfortably flexible even in the cold, the TÜV-certified protector adapts to the body and absorbs impacts through the immediate hardening of the foam. Meanwhile, the broad hip belt and the **FREE RIDER's** silhouette, which integrates with the body, ensures a **SECURE FIT** on the back. We have completely redesigned the series' inner to aid packing. Thanks to this redesign, we have been able to produce 20 liters of fully-utilizable volume for our **AVABAG** unit. Outside, the tried and tested freeride features come into action, whereby we have significantly optimized the helmet and snowboard holder.

ORTOVOX AVALANCHE AIRBAG STANDARDS

- Safety compartment
- Chest strap with signal whistle
- Helmet net
- Ski fastener
- Water-resistant zipper
- Hydration system compatible
- Bright inside
- Emergency card

D-SKIFIX

AVABAG ASCENT 22

ORTOVOX

ASCENT means total emphasis on **SAFETY.** We have developed a **TECHNOLOGICAL ULTRA-LIGHT AVALANCHE AIRBAG BACKPACK** that has been adapted in every aspect to our **AVABAG SYSTEM**, making even the longest and most demanding ski tours possible. In order to achieve the low total weight of 1950 g (incl. system and cartridge), we've used **EXTREMELY LIGHT** yet **ABRASION-RESISTANT MATERIALS** such as Nylon 100D Robic Ripstop, and we've also forgone the use of all nonessential components. However, we haven't forgotten about **HIGH WEAR COMFORT. The FOAMED 3D BACK SYSTEM** distributes the weight evenly between the hip fins and the padded shoulder straps. The **CIRCULAR FRONTAL ZIPPER** provides quick access to equipment, the diagonal ski attachment, ice axe holder and rope fastener, which are all very easy to use.

HAUTE ROUTE 32 BACKPACK

ORTOVOX

The Haute Route has been around almost since the birth of ski touring. Following a new makeover it is now much lighter and, thanks to the use of Cordura® and double-layered Nylon 420D, even more resistant to abrasion. We have also taken the O-Flex back system to the next level. More technical and slender in appearance, it distributes the weight in a tried and tested way between the hips and shoulders to ensure outstanding wear comfort. This pack has access to the main compartment through the back as well as being generously equipped. The new version comes with crampon fastening, a fixed helmet net, a map compartment and external rope fastening. With usable volume of 32 liters, this pack is a leader among our touring packs.

STREAMER™ RESERVOIR

Drinking regularly whilst exercising will keep you fit for longer. The Deuter hydration systems with their “Helix Valve“ enable a constant flow of liquid without interrupting the flow of your sports. Top performing hydration systems in 3 sizes, with competent hydration technology from Source Vagabond. Tast-Free bladder: The special film with inner surface as smooth as glass, keeps water for days and even weeks without changing taste. Due to the special molecular properties of the bladder, this system is very hygienic, easy to keep clean. Taste-Free tube: The special co-extruded tube has a glass smooth inner surface without any taste. Streamer Clip: Full width top opening for easy filling and cleaning. Easy to use sliding clip. Absolutely leak-proof.

62-4990

62-4992

STREAMER™ HELIX VALVE

Helix Valve: The new mouthpiece is drip-proof and has a water stop tap. The tap is opened by a simple quarter turn. With light pressure, the water flow is activated and flows at a comfortable rate. The integrated spring valve causes the mouthpiece to shut automatically. The “Helix Valve” is easy to take apart and clean.

RIGID

FLASHLIGHTS

The Rigid Industries RI-Series™ is a full line of flashlights that offer high-output LED technology in a compact package. Inspired by tactical flashlights developed for military and law enforcement, the RI-Series combines cutting edge LEDs with a machined aluminum reflector to create a rugged, powerful light source. The type III military grade hard anodized aluminum housing, thermally regulated circuit board, polycarbonate lens, and sealed construction have been tested against shock, vibration, sun, salt, and moisture, ensuring years of trouble-free operation. All come with a rechargeable battery and charger. Backed by a Limited Lifetime Warranty.

ThermaCELL®

RECHARGEABLE HEAT PACKS

Available in two convenient sizes, Heat Packs allow you to fight off winter's cold in multiple ways. The smaller Heat Pack Hand Warmers come in packs of two that fit into gloves and small pockets to keep your hands at the perfect temperature. Also available in a larger size, Heat Pack Pocket Warmers can fit inside coats and jackets to keep entire areas of your body warm.

HEAT YOU CAN HANDLE

Unlike disposable, air-activated hand warmer packets, ThermaCELL's rechargeable Heat Packs provide constant, regulated warmth. You no longer have to deal with unpredictable heat that can struggle to keep hands warm in enclosed areas or overheat hands, leaving them sweaty and vulnerable to the cold. ThermaCELL Heat Packs warm right to the temperature you select at just pennies per use.

- RECHARGEABLE - Internal LiPo battery fully charges in up to 4 hours and lasts over 500 charging cycles
- 3 HEAT SETTINGS - Adjust warming levels with a simple touch of a button to maintain your desired temperature
- LONG-LASTING - Get continual warming comfort up to 6 hours per charge
- COST EFFECTIVE - Reusable Heat Packs can be used for years, providing significant savings when compared to disposable hand warmers

Description	Dimensions	WPS#	List
ThermaCell Hand Warmers (2/pk)	3" x 1.6" x .5"	**472-4405**	**$79.95**
ThermaCell Pocket Warmer (1/pk)	4" x 2.9" x .5"	**472-4406**	**$69.95**

"EL MACHO" TREKKING TUNNEL PAK

- El Macho is a tub style designed tunnel pak created for those riders who need to haul larger amounts of gear to the back country or are doing longer trips needing extra capacity
- Pak integrates a vacuum formed tub that is waterproof protecting gear which needs to stay dry
- Zipper top has a durable plastic insert sewn in to provide a hard top protecting items inside
- Top includes a flip down integrated tunnel rack design allowing larger items to be strapped on or carried on the outside of the pak
- El Macho only fits on Crossover & Long Track Mountain machines
- Tub dimensions – 16Wx21Lx12H
- Pak is intended to be removable once you have reached your riding destination
- Pak is capable of carrying a snowboard
- Pak includes a zipper compartment on the inside of the lid for the rack straps and external end pockets for extra small items

Color	WPS#	List
UNIVERSAL		
Black	241-07485B	$324.95

"MINI MACHO" TREKKING TUNNEL PAK

The Mini Macho is a smaller more compact version of the El Macho. It still offers the same features of a waterproof vacuum formed inner tub and a hard zipper top. The hard top has the big aluminum D-rings on the top to strap down external storage if needed. Just like the El Macho, the Mini Macho can be removed when you get to your riding area and go ride. Great for hauling a variety of items and easily removable.

SPG SKINZ PROTECTIVE GEAR

NXT LVL QUICK RELEASE CROSSOVER TUNNEL PAK

- New, smaller crossover size 15”x13” specific size allows you a smaller more compact option perfect for shorter tunnel machines or if you just don’t need a lot of storage space
- Quick Release Mounting system - Allows the rider to remove the pack whenever they choose
- Constructed from FTEC, a structured yet soft material that holds its shape and is completely waterproof
- Smooth and sleek, low design to stay out of the way for aggressive backcountry riding
- Designed to work on any tunnel and will fit with the Polaris T-Slot system
- An air gap is maintained on the bottom to the pack allowing cooling. This prevents condensation from building up on the inside of the pack, and moisture due to the heat from the tunnel
- Everything is included for complete installation
- Note: only the bottom of the pack is colored

NXT LVL Q-R FREERIDE TUNNEL PAK

SPG has developed a completely new design in this SPG/ Next Level/Fly Q-R tunnel Pak. Q-R means Quick Release. This pak will have a quick release mounting system that will allow the rider to remove the tunnel pak whenever they choose. It will also be constructed from a new structured soft styled vacuum formed material that will maintain size and shape and is a completely waterproof material. Special zippered closure with compartmented interior will give the rider organizational capabilities for all their contents. Smooth, sleek, low design will be perfect for aggressive backcountry riding and will look good on any machine. System will fit on some crossover machines and all long track machines. System is made to work on any tunnel style and will fit with the Polaris T-Slot system. Another benefit with the pak is the air gap maintained between the bottom of the pak and the tunnel allowing a much greater degree of cooling capabilities. This pak is approx. 14” wide x 18” long x 8” tall. That is just over 2000 cu inches of storage that is positioned low and centered for great snowmobile control. Kit includes the mounting system and the pak. Everything is included for a complete installation.

NXT LVL UNIVERSAL TUNNEL PAK

- Paks are constructed with a modular design in which an additional pak is removable to suit the riding day or the amount of storage needed. If the day is light, remove the additional pak and the unit is lighter and smaller. If more storage is needed, add the modular pak back on and go.
- Tunnel paks attach with buckles and adhesive backed Velcro. They include carry handles for easy toting.
- Paks are stylish and incorporate the features and benefits needed for the type of riding Dan Adams instructs in his clinics.
- Paks have exterior rings to attach or bungy additional items if needed.

UNDER HOOD DRIVE BELT BAG

- Polaris RMK (non AXYS) snowmobiles that are 2013 or newer use the quickdrive belt drive system. Polaris requires the spare belt to remain undisturbed and in its original shape. SPG offers an under hood belt drive storage bag which maintains the belts original shape keeping it warm and ready if needed to be installed
- In addition, there is a zipper compartment included in the bag which stores the extra hardware included in the spare belt kit
- Belt bag is easily installed on the overstructure tube and does not require the hood to be removed
- NOT AXYS CHASSIS

BURANDT GRIZZLY RIDER GAUNTLETS

- Innovative design that provides maximum accessibility while still providing warm comfort for your hands.
- Allows the use of thin gloves.
- Soft, flexible sides to allow the side of the gauntlet to “flex” away during technical riding.
- Magnetic dump flap on the bottom. Enables the bottom of the gauntlet to open up and clear snow buildup fast and easy. Magnetic flap closes with minimal effort and very efficient.
- Cool, styled design with the rider in mind to still ride technical terrain during cold days.
- Easily removable, can be used to ride to an area and remove. Re-install for the ride back to the truck.
- Product originates from need and performance.
- Durable sewn construction.

RINO® 750 / 755T

GARMIN

Rino® 755t brings trail-tested confidence to any hunt, trek, climb or adventure with its 5 W FRS/GMRS 2-way radio, built-in 8 megapixel auto focus camera, preloaded TOPO U.S. 100K maps, BirdsEye Satellite Imagery and 3-inch touch screen display. Dual GPS and GLONASS satellite reception gives better tracking in challenging environments. Plus, there's Active Weather support with animated radar, Position Reporting with emergency alerts, Bluetooth® headset audio, 3-axis compass, barometric altimeter and more.

- 5 W FRS/GMRS 2-way radio
- 8 megapixel autofocus camera with LED flash/torch
- Preloaded TOPO U.S. 100K maps and worldwide base map with shaded relief
- High-sensitivity GPS and GLONASS satellite reception; tracks in more challenging environments than GPS alone
- 3-inch sunlight-readable touch screen display with dual orientation (landscape or portrait view)
- Bluetooth® audio headset support for improved voice communication
- 3-axis compass with accelerometer and barometric altimeter sensors
- Bluetooth®-enabled smart notifications and automatic uploads to Garmin Connect™ online network
- Supports Active Weather forecasts and animated weather tracking
- Geocaching.com integration makes it easy to find and download the caches you want
- Features worldwide base map with shaded relief

Rino® 750 is the do-it-all navigator/radio combo for hunters and outdoor adventurers. It features a powerful 5 W FRS/GMRS 2-way radio. Plus, its dual GPS and GLONASS satellite reception affords better navigation tracking in challenging environments. Other highlights include glove-friendly controls, Active Weather updates with animated radar, Position Reporting with emergency alerts, Bluetooth® headset audio, 3-axis compass, barometric altimeter and more.

- 5 W FRS/GMRS 2-way radio
- High-sensitivity GPS and GLONASS satellite reception; tracks in more challenging environments than GPS alone

TRACKER PACKER

NEW

GIANT LOOP

Check out the NEW 2019 Tracker Packer for SPOT Gen3 and Garmin inReach Mini – plus remaining stock of the Tracker Packer for Delorme inReach. Stay safer in the backcountry during all your outdoor adventures — motorcycling, snowmobiling, snow biking, backpacking, climbing, mountain biking, boating — with help the push of a button away. The super rugged and secure Tracker Packer holster and mount firmly attaches the SPOT Gen3, DeLorme inReach or Garmin inReach Mini devices to your pack’s shoulder strap, your upper arm, lower leg above the boot or other locations. The Garmin inReach Mini devices allow you to send and receive messages, trigger an interactive SOS, and track and share your trip anywhere in the world.

NOTE: Wearing the Tracker Packer on your body is the best safety practice.

- Compatible with SPOT Gen3, Garmin inReach Mini devices (also available for DeLorme inReach while supplies last)
- Includes heavy duty quick adjusting hook-and-loop extension strap for mounting on arm over body armor
- Includes redundant tether to secure device to apparel or backpack
- Red label with “SOS”
- Caselli 66 and GL logos printed on holster
- Redundant double hook-and-loop attachment system with tether cord (Garmin inReach Mini and SPOT Gen3)
- 2” heavy duty hook-and-loop band with grippy backing
- Elastic shock cord retainer loop for Garmin inReach Mini antenna
- Foam padding to absorb shock and vibration
- Mil-spec materials and hardware
- Limited Lifetime Warranty

GARMIN

inReach® Mini

inReach Mini is your go-to connection for maintaining off-the-grid contact. It's our palm-sized satellite communicator for adventures where size and weight matter. inReach Mini lets you send and receive text messages, track and share your journey and, if necessary, trigger an SOS alert to contact the GEOS 24/7 emergency response team. With inReach connectivity, your family and friends will know they can stay in touch globally. Measuring just under 4" tall by 2" wide and weighing a mere 3.5oz, inReach Mini is fit for exterior pack pockets or accessory loops. It connects for messaging via the 100% global Iridium satellite network. You don't have to worry about being within range of a cell tower or encountering spotty coverage.

- Affordable and flexible satellite subscription required.
- Wireless Bluetooth compatible
- Earthmate App for Apple and Android
- Trigger an interactive SOS with 24/7 search and rescue monitoring center
- Send and receive text messages to SMS and email
- Send and receive messages with other inReach users, exchange locations
- Track and share location with friends and family on web-based MapShare® portal
- Request weather forecasts for current location and planned destination
- Virtual keyboard for custom text messaging
- Send waypoints to MapShare portal during trip
- Send route selection to MapShare portal for friends and family to see progress
- In the box: inReach Mini, USB cable, carabiner clip, spine mount adapter
- Tough, durable, impact resistant and water-rated to IPX7
- Internal, rechargeable lithium battery for up to 50 hours' use at the default 10-minute tracking mode and up to 20 days in power saving mode.

inReach Explorer®+

You may venture off the grid, but you can still stay in touch — as long as you're carrying an inReach Explorer+. This handheld satellite communicators are designed for the outdoor enthusiast who wants to roam farther and experience more — without compromising their loved ones' peace of mind. From backcountry experiences to international adventures, inReach provides communication, location sharing, navigation and critical SOS functions for anyone who loves getting away from it all, on land, water or in the skies. Using the worldwide coverage of the Iridium satellite network, these go-anywhere portable devices let you exchange text messages with any cell phone number or email address — while using GPS to track and share your journey's progress. You can also post to social media or even communicate inReach-to-inReach in the field.

- Global Iridium satellite network
- Earthmate app pairs with mobile device
- GEOS emergency response solutions and monitoring
- Location tracking and sharing via MapShare
- Affordable and flexible satellite airtime plans
- Unlimited Cloud storage and trip planning included
- Rugged durable, impact resistant and IPX7 water rated
- Preloaded TOPO maps (not compatible with other Garmin devices)
- USB charging cable and carabiner clip included
- Rechargeable Lithium battery gives up to 100 hours battery life in tracking mode and up to 30 days in power save mode

VIRB™ ULTRA 30 ACTION CAMERA

- Ultra HD video - Crystal-clear 4K/30fps footage, 1080p/120fps or slow motion capability at 720p/240fps
- G-Metrix - GPS data overlays help prove how far, how high and how fast you went
- LCD color touchscreen - 1.75-inch display is easy to operate; fully functional in and out of waterproof case
- Voice control - Shoot hands-free by using voice commands to start/stop recording, take a photo or tag footage
- 3-axis image stabilization - Captures steady footage up to 1080p/60fps
- High-sensitivity microphone - Captures clear audio, even in windy conditions or underwater
- Automatic video creation - Create videos that show off the best moments from your activity
- 1-touch live streaming (for compatible Apple® devices) - Share your video with friends in real-time
- Simple, 1-touch controls and dedicated “instant on” record switch to turn on the camera and start/stop recording; use the separate photo button to capture still images
- Presets let you save camera configurations for fast setup when switching operation
- Auto pause sensing: starts recording when VIRB™ starts moving; avoids capturing boring footage before activity begins
- Photo - 12 megapixels; burst up to 60 frames per second in wide mode (8 megapixels); night shots, time lapse, extended time lapse and travelapse photo capture
- Multicamera sync - VIRB Edit® software syncs clips from multiple angles based on GPS time
- Custom, wide-angle aspherical glass lens: maximum image sharpness, lowest distortion above and below water
- Built-in motion sensors sync to video, using 10 Hz GPS, gyroscope, compass, altimeter and accelerometer to capture motion data
- VIRB® Ultra 30 works with many compatible Garmin devices using ANT+® wireless technology to remotely control the camera and capture sensor data for performance data sharing or display on footage
- Free VIRB® app turns your compatible smartphone or tablet into a Wi-Fi® remote control for your camera; lets you view and control multiple cameras, add G-Metrix™ overlays, select highlight clips, live-stream3 footage online and more
- Free VIRB® Edit software lets you easily create and edit video. Add music and/or G-Metrix™ animated data graphs and gauges to your footage; share with friends online

VOYAGER COMPUTER

TRAIL TECH®

A fully functional GPS computer every snowmobiler should have and use. Whether you're a backcountry rider, trail runner, distance traveler, or boondocker, this computer will give you all the tools to make your ride even more enjoyable. With features like a fully programmable and updateable GPS unit, speed, distance, compass, temperature and altitude functions, you'll have the assurance of knowing where you are, how to get back, and the status of your machine. This unit is easy to use and has an easy to read screen for day and nighttime riding.

Display: The Voyager 400x240 WQVGA LCD display has no rival on the market, featuring incredible resolution and contrast. In intense sunlight the transflective properties go to work creating a bright, vivid display. An LED backlight lights the display after the sun goes down.

Smart Data Logging: When your engine stops so does the GPS trail logging – eliminating random data points from your track when you're not moving. Voyager provides clear, accurate tracks even in the toughest terrain.

Sharing: Use OHVtrails.net to download and share your favorite trails. Explore new trail areas with confidence. Voyager also offers on and off the trail file sharing between units via the waterproof MicroSD card (reads most GPS brands.)

Temperature: Voyager provides both ambient and engine temperature. Engine temperature is saved in track data points and graphed for comparison with altitude changes. Diagnostic screens help you review engine performance from past trails. Will work on either air-cooled or liquid cooled machines.

- GPS Speed, Distance, Compass,
- Altitude, Temperature, Maps
- 2.7" 400x240 WQVGA LCD
- Readable in the brightest sunlight
- Engine performance linked to GPS data
- Crash resistant, includes a handlebar mount with a universal bracket
- Upload routes from any GPS or PC
- Purpose designed mounting
- Customizable user screens
- Accepts AC or DC power from virtually any vehicle
- Rugged handlebar mounts - 7/8" to 1-1/8"
- Waterproof
- Track Manager CD: View, edit, organize and share entire trail systems in 3D
- Screens: Data is intuitively arranged and quickly accessed using joystick navigation
- Diagnostics: Altitude vs. Engine Temperature profiling for advanced GPS diagnostics
- Mapping: Accurate tracks, even in the toughest terrain. Pan, zoom, graphs, waypoints, and more
- Sharing: Waterproof, easy access MicroSD card reader allows sharing of routes, even on the trail

IS COOLING CASES

NEW

Protects the smartphone's battery and maintains it at the right operating temperature up to 40°C thanks to its built-in ventilation system. During the summer, smartphones are exposed to the sun's UV rays. These rays create an accumulation of heat and gas in the smartphone's battery. In some extreme cases, the smartphone can no longer work and displays a message, asking the user to cool his device to continue to use it...

- IS COOL allows the battery to maintain the perfect operating temperature and preserve the life of the phone
- Built-in Air ventilation system
- Compatible with all smartphones up to 6.3 ", max size 16.5 x 8.5cm 3 mounting system included in the box
- 100% of the handlebars are compatible with SO EASY RIDER

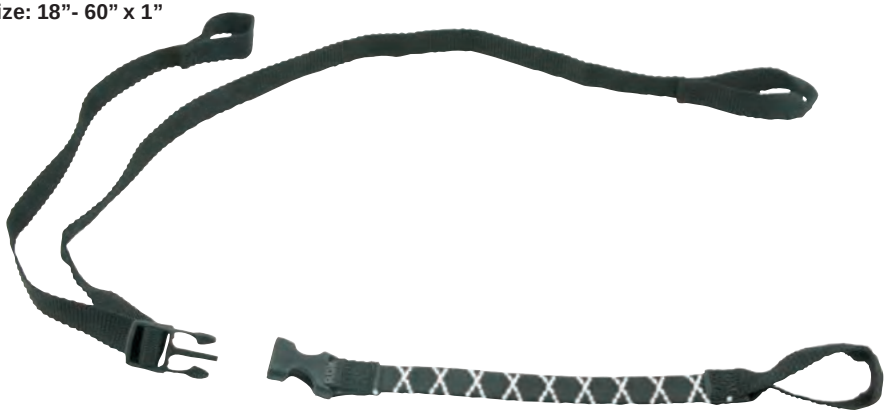
ROK STRAPS

MOTORCYCLE STRAP



Our famous "flat cargo stretch straps", designed specifically for motorcycles, ATV's (Quads), and snowmobiles. Our flat cargo motorcycle straps are available in Adjustable or Tailored Lengths. Secure anything to a motorcycle without scratches with these flat cargo motorcycle straps - no hooks cargo straps!
Size: 18”- 60” x 1”

PACK STRAP

Adjustable Pack Straps are specifically designed to attach to back packs and bycicles to secure smaller items without damaging waterproof materials. Quick release buckles ensure fast and quite access to gear.
Size: 12”- 42” x 5/8”

COMMUTER STRAP

Specifically designed to attach and secure smaller items onto scooters, bicycles and back packs without damaging waterproof materials. Quick release buckles ensure fast and quite access to gear.
Size: 12”- 28” x 1/2”

CABLE AND PADLOCK

- ¼" X 6' self coiling cable
- 1 9/16" wide laminated steel lock with weather proof cover
- Hardened steel shackle with molded cover

WPS#	List
57-7665	$17.99

TUFF LINKS

- 3' long hardened chain with attached lock
- Black nylon sleeve protects from scratches

WPS#	List
57-7610	$42.99

TITANIUM SERIES PADLOCKS

- Reinforced with titanium
- Hardened steel shackle
- Ideal with looped cables

Description	WPS#	List
Keyed	57-7662	$16.99

STAINLESS STEEL ROUND PADLOCK

- 2 ¾" wide corrosion resistant stainless steel body
- Fully shielded design minimizes shackle exposure and protects against bolt cutter attacks
- 19mm hardened steel shackle for extra cut resistance

WPS#	List
57-7663	$17.99

TRUCK BED U-LOCK

- Provides locking 190° swivel tie down point
- Hardened steel shackle and lock body
- Fits into pick-up truck bed stake hole pockets or onto the stock tie down locations of the following:

Dodge Ram and Dakota '06-up

Ford F-Series '02-up

GMC/Chevy 1500/2500 '02-up

Toyota Tundra '05-up

WPS#	List
57-7621	$39.99

STREET CUFF

- Hardened chrome plated steel resists cutting or prying
- Compact and lightweight, folds in half for easy storage
- 3" diameter to fit fork legs or frames, can be secured to sign posts, parking meters or another bike
- Push button keyless locking
- Pivoting action combined with 22" length provides lockdown versatility

WPS#	List
57-7601	$76.99

QUANTUM CUFF

- 6' long braided steel, vinyl coated cable
- Super strong cuff type lock assembly
- 3" cuff diameter to fit fork tubes, frames, sign posts, and parking meters

WPS#	List
57-7613	$48.99

400 Denier Nylon Cover: with stretch cord for a snug fit

HANDLEBAR AND RISER INSTALLATION GUIDE

WPS offers this guide to assist you in choosing the best handlebars and handlebar riser system for your riding style, terrain, and machine

CHOOSING HANDLEBARS:

1. Decide which handlebar will best suit your riding style, snocross, mountain riding, freeriding, trail riding, freestyle.
2. For snocross, trail riding, boondocking, and freeriding, the FLY Racing Sno X, Sno X Race, Sno X Mountain bars are recommended.
3. FLY Racing's Sno X Race bar is engineered with hooks on the end of the bars. Sno X, Sno X Mountain bars, and most other aluminum/ tapered style handlebars with a 14mm I.D. will accommodate the FLY Racing Aero Tapered Handlebar Hooks. These install in the end of the handlebars for a flush type mount.
4. For advanced freeriding and freestyle, the FLY Racing NXT LVL Aero Flex (recommended for backcountry), Aero Taper Mini bend and Sno X Mountain snowmobile bars are the choice of FLY Racing's top athletes
5. If you are installing the FLY Racing Aero Taper handlebars with a stock riser, you may need to install an oversized universal clamp kit. Most OEM riser blocks are manufactured to accommodate 7/8" handlebars. The oversized universal clamp kit will adapt any 7/8" system to a 1 1/8" handlebar.
6. If you have a pivot style steering post, the FLY Racing Fixed Height Tech risers are recommended. With these risers, you may use either a standard 7/8" or 1 1/8" handlebar with no oversized adapter.
7. If you have a flat top style steering post, the FLY Racing Tech riser is recommended. Heights available in 1" and 2".

CHOOSING HANDLEBAR RISERS:

1. WPS also offers several different brands, heights, and types of risers. FLY Racing, AMP, Powermadd, Rox, SP1, and Sportech brands.
2. You need to know which type of steering post you have, pivot style or flat top style. Look at the top of the steering post, the pivot style will have a pivot tube, the flat top will have a flat plate on top of the steering post.
3. Pivot style risers are widely recommended by the industry's top athletes and riders, as there is a larger range of adjustability to accommodate your riding style and handlebar placement.
4. Powermadd's Adjustable Height and Rox Elite Series Adjustable risers will give you multiple heights to work best with different riding styles. These risers give you the option of being able to adjust your handlebar height on the trail giving you better control and comfort in multiple riding terrains.
5. If the machine has a flat top style steering post and you want to convert to a pivot style riser, you will need a FLY Racing Aluminum Pivot Post Adapter which will work with virtually any type of pivot style riser except Powermadd Pivot Style Risers
6. Some flat top steering posts are designed to put the handlebars closer to the rider moving the rider further from the front of the machine. SP1 offers angled risers which moves the rider closer to the front of the machine offering better control and handling, especially in deep powder riding.
7. If installing Powermadd Pivot style risers, Powermadd pivot style adapters are required for installation.
8. Most machines will accommodate up to a 2" rise above the OEM height without any modifications to the brake lines and throttle cables.
9. If raising your handlebars more than 2" above the OEM height, you will need a longer brake line and either a longer throttle cable or throttle cable extension.
10. WPS offers SP1 Extended Length Throttle cables, which is an economical OEM replacement that is 8" longer than stock cables. This allows the rider to raise the handlebars up to 8" taller that the stock height. WPS also offers Powermadd throttle cable extension kits and extended throttle cables that allow handlebars to be raised up to 10" total height.
11. FLY Racing and Powermadd extended length brake lines are also offered through WPS and will accommodate your height requirements.

OTHER ITEMS NEEDED FOR INSTALLATION:

1. When installing handlebars, handwarmers and grips will often need to be replaced.
2. WPS offers several different types of handlebar warmers. SP1 High Output Grip Warmers offer a 30-watt warmer that is recommended for aluminum, tapered style handlebars, and colder weather riding. These are also available in 2 styles, regular length and extended length for handlebars with aluminum hooks.
3. Many different grips are also available through WPS. Dirt bike/motocross style grips will not work on snowmobiles. One grip has a larger I.D. for motorcycle throttle tubes. Snowmobile, ATV, bicycle, and watercraft grips without flanges are recommended.
4. If you are using FLY Racing Aero Tapered style handlebars with hooks, or Aluminum style bars with aluminum hooks installed, the ODI and SP1 8" grips as well as the Sportech Ultra grips are required.

FLY RACING

DAN ADAMS' NXT LVL RIDING CLINIC

ATTENTION RIDERS: "Get lower to your sled, take control, and let my new NXT LVL bar from FLY Racing take your riding to the NEXT LEVEL!"—Dan Adams Next Level Riding Clinic

The NXT LVL bar from FLY Racing will help take your riding to the next level.

- Designed and tested with one of the industry's most technical backcountry athlete's, Dan Adams from Next Level Riding Clinics
- NXT LVL specific bend will improve handling and increase control of machine
- Will lower the center of gravity which causes the machine to feel less "tippy" a trait found on new body style machines
- Made from 2014 aluminum allowing for greater flex through bumps to help reduce arm pump
- Bead blasted finish for added strength
- Standard 7/8" diameter
- 5 3/4" height with an 8 degree pullback
- Will accept FLY Aero Taper, SLP Pro Taper, and Polaris Pro Taper style handlebar hooks
- Grip area is wide enough to accept oem controls and handguards
- Adjustment lines on the end of the handlebars allows you to cut the bars down to your preferred width
- Crossbar is drilled to accept mountain strap--Mountain strap not included
- NXT LVL handlebar includes FLY Racing crossbar pad
- Crossbar pad made from heavy duty woven material, wont crack in cold temperatures
- For taller height, pair with FLY Racing's Tech Risers

Crossbar predrilled for moutntain bar (mountain bar not included)

STEERING BLOCKS

- Replaces wear prone plastic OEM blocks on steering shafts
- Machined from 6061 T6 Aluminum and bronze alloy bushings
- Eliminates having to lube steering shaft bushings
- Since these are precision machined for perfect fit, bent or warped steering posts may cause binding and trouble installing.

- 18-99701 Includes 2 blocks, 2-3 pairs per sled
- 18-99601 includes 2 blocks
- 18-99802 includes 2 upper blocks and bronze alloy bushings
- 18-99803 includes 2 lower blocks and bronze allow bushings
- 18-99804 includes 2 lower shaft blocks
- 18-99805 includes 2 upper shaft blocks

C

ADJUSTABLE STEERING POST DELETE

- Eliminates 90% of the slop found in stock adjustable steering post
- Uses stock steering post
- Does not require removal of steering post
- Allows rider to pick height and type of t-style handlebar riser
- Works well with Fly Racing's Fixed Height Tech Risers
- Can save over 1lb depending on type of riser
- Made in U.S.A.!

Application	WPS#	List
ARCTIC CAT		
ProClimb, ProCross Chassis	**249-80001**	**$69.95**

BRET RASMUSSEN STEERING POST RE-MOUNT KIT

- Remount kit moves the steering post forward 1.250" or 1.750". Mounts allow a 2 position option to fine tune your steering post to your exact requirement.
- Repositions rider for optimal technical terrain riding.
- Allows rider to properly adjust steering controls & handle bars to improve riding position and utilize machine capability
- Kit includes re-mount blocks, Delrin upper bushing kit, & Delrin lower swivel bushing kit
- Re-mount kit uses OEM steering post making the installation fast & easy

Application	WPS#	List
SKI-DOO		
Gen 4 850	**241-03376**	**$249.95**

BRET RASMUSSEN STEERING POST RELOCATE

- Developed by Bret Rasmussen and Skinz
- Moves the steering post forward 2 inches from OEM position
- New location places the post in a more vertical position for correct steering ergonomics
- Lightweight, Billet machined aluminum relocation mounts
- Durable Nyloil machined bushings for precision fit
- Extremely strong 4130 Chromoly steering post with T top construction for pivot style risers
- Stronger, reinforced steering frog on bottom of steering post
- No trimming of airbox needed
- All parts and instructions included for complete installation

Application	Year	WPS#	List
SKI-DOO			
XM, XS Chassis	`13-18	**241-03375**	**$324.95**

ChromAlloy

- Pivot style risers allow adjustments in the steering post-handlebar and handlebar angles
- One piece cap allows for a strong unified steering structure
- Will work for 7/8" and 1 1/8" handlebars

Height	WPS#	List
2"	**241-25502**	**$89.95**
3"	**241-25503**	**$99.95**

6"	**241-25506**	**$124.95**

ALUMINUM PIVOT POST ADAPTER

- FLY Racing exclusive design
- Required when converting to T-post style risers
- Works with FLY Racing Fixed Height Tech Risers
- Will work on other 2-piece pivot style risers
- 6061 T6 Aluminum construction
- Lightweight and durable construction
- Adds 1.45" of height
- Mounting bolts included

Application	WPS#	List
Arctic Cat	18-95020A	$29.95
Polaris	18-95021A	$29.95
Ski Doo	18-95022A	$29.95

FIXED HEIGHT TECH RISERS

DESIGNED BY RXSPEEDFX

- Designed to fit any machine with pivot/ “T” style steering post (or with pivot style adapter)
- Extruded from 6061 aluminum with black anodized finish
- Fits 1-1/8” tapered bars, non-slip adapters included for 7/8” bars
- Perfect for FLY Aero-Taper, Aero-Flex, and Chromoly bars
- Requires a pivot style steering post or a double pivot post pivot adapter
- Note: Extended throttle cable and brake line may be required to accommodate taller risers

Universal Clamp Kit installed on a PowerMadd pivot riser block

18-9498

18-9499

OVERSIZED HANDLEBAR UNIVERSAL CLAMP AND PAD KIT

- Adapts Aero-Tapered and other 1 1/8” oversized handlebars to fit standard 7/8” clamps/risers
- Fits most snowmobiles that have stock handlebar mounts/clamps
- Adds 3/4” rise to handlebar
- 18-9498 includes woven material bar pad cover, 18-9499 includes durable poly cover
- Universal design fits all flat style steering posts, OEM risers, and most aftermarket risers

WPS#	List
18-9498	$42.95
18-9499	$44.95

FLY RACING

TECH RISERS

- FLY Racing's latest addition to handlebar riser innovation
- Accepts 7/8" handlebars
- Fits flat top steering posts with 2.25" bolt width (center-center)
- CNC machined 6061 T6 Aluminum
- Anodized for corrosion resistance
- Works well on late model Polaris including AXYS RMK and Arctic Cat models
- Create the ultimate in handlebar/ riser systems by pairing with FLY Racing's NXT LVL handlebars
- Includes heavy duty stainless mounting hardware
- Made in USA!

NOTE: Will not work on Ski Doo models with narrow steering post plate

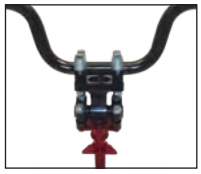
FOR PROPER INSTALLATION OF THIS RISER SYSTEM YOU WILL NEED:



Ⓐ Universal pivot riser adaptor (WPS# 44-8330)

Ⓑ Universal riser blocks

Throttle cable extension/extended throttle cable and extended brake line may be required depending on OEM length of throttle cable and brake line.

Ⓐ UNIVERSAL PIVOT RISER ADAPTER

- Converts flat style steering post to a pivot style
- Works on all brands of snowmobiles with flat steering post
- Raises bars 3” and can be used without additional riser blocks
- Works with Powermadd universal riser blocks for additional bar heights taller than the 3” that the adapters provides

Description	WPS#	List
3” Universal pivot riser adapter	44-8330	$85.00

Ⓑ UNIVERSAL RISER BLOCKS

- For use only with Powermadd universal pivot adapter # 44-8330
- Provides additional height to raise handlebars

	Description	WPS#	List
1”	Universal Riser	44-8334	$25.00
3”	Universal Riser	44-8331	$35.00

Flat style Post

POLARIS PRO-TAPER NON-PIVOT RISER BLOCK

- Designed for Polaris models with Pro Taper handlebars and one piece top clamp
- Includes mounting bolts and nuts, use stock top clamp
- Extended brake line / throttle cable may be required depending on handlebar and riser height

Height	WPS#	List
1”	44-8300	$35.00
2”	44-8304	$40.00
3”	44-8303	$45.00

NON-PIVOT RISER BLOCKS

- Extruded 6061-T6 aluminum comes complete with hardware and installs in minutes
- No extra adapters needed
- Most snowmobiles will accept a 2” riser block without modifications to cables or wiring.
- Fits flat style steering posts

POWERMADD

ADJUSTABLE HEIGHT PIVOT RISER

- Mounts to any t-style steering post, wide or narrow
- Designed for standard 7/8" handlebars, fat bar adapter required for taper style handlebars
- Can use any type of t-post adapter for converting flat top steering posts
- Works great in lower position for trail riding, taller position for boondocking and stand-up riding style
- 3" of adjustability
- Locking assembly requires no tools for adjusting height on trail
- If rising bars more than 2 inches over stock, throttle cable and brake lines may need to be extended

For narrow T-post

For wide T-post

HANDLEBAR HOOKS WITH MICROTACK GRIPS

- For stock steel handlebars
- Includes hook and micro tack

WPS#	Description	List
44-8387	All models with OEM steel bars	**$31.95** ea
44-8386	Models with 14mm id bars, will fit Fly NXT LVL handlebars and Polaris models with Pro Taper bars	**$31.95** ea

Control Hooks attach to the end of the handlebar and are ergonomically designed to provide the operator more comfort and control. These hooks provide proper distance between the end of the hook and throttle or brake controls to make the turn down hook functional while using the controls. They also use SLP’s Micro Tack Grips to provide a superior gripping surface on the bar and turn down hook with no uncomfortable seam. Kit sold per each: One SLP Control Hook complete with anchor and one SLP Micro Tack Grip.

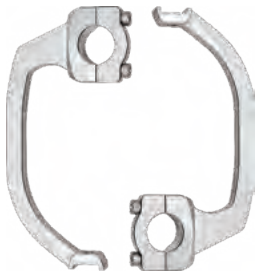
GEN 2 FLEX-TEC HANDGUARDS



- Flexible backbone is incredibly durable, allowing guard to twist and flex in the event of a roll-over yet providing sufficient protection for frontal impacts
- Simple, 4 position mounting option of guard to billet mount to insure proper placement in front of hand
- Designed for maximum protection from the elements without interfering when riding aggressively
- Flex-Tec design creates more of a pocket of protection verses conventional flatter guards
- Extended lower flashing to keep wind and cold away from your fingertips
- Requires ½" of exposed handlebar to attach to
- A must for late-model sleds with reduced wind protection and minimal windshields
- 100% waterproof
- Must order mount kits separately

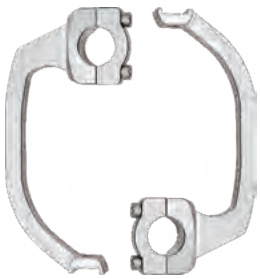
PRO-TEC HANDGUARDS



- Snocross style XL sized handguards
- Used by many of the top ISOC race teams
- Rigid but flexible backbone built to withstand cold without cracking or breaking off
- Extra large coverage area keeps hands warm and protected
- Provides large surface area for sponsor logos
- Can be used with or without provided foam extensions
- Must Order mount kits separately
- Standard Mount will work on most sleds
- Hayes Kit will work on 2012-newer Arctic Cat / Yamaha and Polaris with Hayes brake reservoir
- Pro Taper mount will work on sleds with crossbars on the sled. Recommended for Fly Racing NXT LVL and Polaris with Pro Taper bars

Green	59-8984	$14.99
Red	59-8982	$14.99

The most popular, fastest selling grip. Manufactured from surgical rubber to reduce hand and arm fatigue while helping to prevent blisters.

GRIP GLUES

ThreeBond

Description	WPS#	List
1 oz. tube	59-9122	$12.50

A high strength adhesive specially formulated to keep grips in place without damaging the rubber. Ideal for Snowmobile, Motorcycle, ATV and Personal Watercraft.

SCOTT

Description	WPS	List
4cc tube - 12/card	51-2810	$2.00 ea

Great adhesive for installing grips on handlebars. Small size helps to eliminate unused waist.

Motion Pro

WPS#	List
57-0003	$8.99

- Motion Pro engineers and test riders found this formula to be the best grip glue available at any price
- Set time is not so fast that you have to rush when installing grips, but fast enough so you can get riding right away
- Becomes tacky in 15 minutes at room temperature, waterproof
- Outperforms rubber cement, acrylics and silicones because it bonds to more surfaces with greater strength and durability
- 20 gram tube (0.7 ounce) is enough for multiple applications

Goldfinger LEFT THROTTLE™

LEFT HAND THROTTLE KIT

FTi WWW.FULLTHROTTLEINC.COM

- Cable adapter and fasteners constructed of highest quality stainless steel
- Gold anodized aluminum throttle lever can be operated with one finger for safer sidehilling
- Safety features include rubber accordian boot (keeps snow out of cable housing) and safety pin (locks left throttle from use while trailriding, etc.)
- Throttle does not interfere with handwarmers
- Kit includes all hardware, allen wrenches and instructions for installation in approximately 20 minutes
- Applications for most models
- Not available for Ski-Doo models with 600ACE, 900ACE, or 12004-TEK

BRAKE RESERVOIR GUARD

NEW

- Helps protect the brake master cylinder

Application	Year	WPS#	List
Ski-Doo	`08-19	12-22160	$69.95

MASTER CYLINDER

Starting Line Products, Inc.

Provides more braking power with less effort. Two finger lockup still gives a secure grip on the bar. Fits all Indy models.

POWERMADD

POWER THROTTLE BLOCK

- Billet 6061-76
- Two piece design installs without removing grips
- Anodized black
- Power block comes with two pivot options for larger carburetors

WPS#	List
12-3914	$50.00

Note:Designed to Use OEM Arctic Cat/Firecat lever. OEM #0609-565

UNIVERSAL THROTTLE BLOCK AND LEVER ASSEMBLY

WPS#	List
12-3913	$60.00

Note: Universal 2-piece design fits most late model snowmobiles

SKINZ PROTECTIVE GEAR

BILLET THROTTLE BLOCK

- Fits Polaris Edge, Pro-Ride, Pro-Climb, Axys, Rush chassis
- 2-piece construction allows for easier handlebar replacement
- Machined billet design for added strength over traditional plastic
- No special tools or hardware needed for installation

WPS#	List
12-39150	$179.95

EMERGENCY – POLARIS THROTTLE SWITCH DELETE PLUG

- Specifically designed for Polaris Snowmobiles
- Intended for emergency use only and not as permanent solution
- Deletes throttle position sensor in factory block
- Used when your throttle switch wires are torn from block. Temporarily deletes the throttle switch to allow the rider to get out of the back country
- Comes with all necessary hardware
- Easy installation

WPS#	List
12-39620	$59.95

590-00116

BILLET THROTTLE BLOCKS

- CNC Machined 6061 T-6 billet aluminum
- Direct replacement throttle block assembly is smaller and stronger than stock
- 2 piece design clamps solid onto handlebars and will not spin or pop off handlebar when tree bashing
- Slim design opens up much needed handlebar space for clamping on accessories like handguards, mountain bars, GPS etc
- Built in wire channels for heater wires to pass through offering a clean look and installation
- Available options include billet push button kill switch and OEM connectors
- Uses stock throttle lever and lever pivot
- Polaris model utilizes stock safety switch
- Great when paired with FLY Racing's NXT LVL handlebars, WPS# 18-95280, 18-95280W, 18-95280R

POLARIS				
IQR, IQRR	'05-14	Smoke	**40-12026S**	**$59.95**
SKI-DOO				
Rev XM, XS	`13-16	Gloss White	**40-14009W**	**$64.95**

40-14009W

- Excellent value when compared to O.E.M. prices
- Remains flexible at sub-zero temperatures
- Manufactured and shipped with a protective covering on both sides to guard against scratches

DEALERS NOTE: *Please advise customers to try fit of windshields on hoods before removing the protective covering. Once the protective covering has been removed windshields are non-returnable.*

HOOD AND SIDE PANEL COMPLETE KIT

HELIUM

- Kit includes: Bumper, Air Intake Kit, Ultra-Q Silencer, Chaincase Cover, Oil Tank, Hood Kit, Side Panel Kit, Lower Side Panel Kit
- Kits for 2018-19 models do not require/include the Chaincase Cover and Oil Tank
- Two different kits available for standard ProClimb and Mountain Cat with extended chaincase
- Dramatic weight reduction and re-configured, narrowed plastic allows for a significant improvement in machine capabilities for extreme technical riding and backcountry scenarios
- Drag and paneling is minimized and through snow efficiency is greatly improved
- Durable TPO formed plastic construction
- Integrated headlight delete
- Lightweight, extreme weight reduction
- Shortens front of machine approximately 6-7 inches
- Narrows machine up to 3 inches on each side
- Lower rear corners are cut and narrowed
- Includes all necessary hardware
- Durable painted finish
- Cannot guarantee fit with any Turbo system
- Note: This hood and side panel kit requires a lightweight headlight of some type

NOSE CONE BLOCK OFF

The stock belly pan on the Polaris Pro RMK Chassis is open to the rear side in the center. When riding in deep snow conditions (12 inches or more of loose snow) this opening allows snow to pack into the belly pan under the pipe. The pipe creates enough heat that the snow melts and refreezes into a massive chunk of ice. This kit helps eliminate this problem by blocking the snow from packing in. Kit includes a formed aluminum block off plate and hardware.

STRAIGHTLINE PERFORMANCE

FRONT BUMPERS

- The ultimate in protection for those who want a bold look for your ride
- Available for late model machines from all 4 manufacturers
- Available in multiple colors - Parts can be mismatched for a custom combination
- One piece aluminum skid plate offers additional flotation and reduces drag in deep snow
- Designed with crumple zones to protect the upper structure of today's sleds
- Completely rebuildable with replacement parts after a crash or impact
- Bumper combinations offer additional protection from trees, rocks, and other unexpected obstacles
- These bumpers are a must for those of you who like to play off-trail

NIGHT CRUISER LED LIGHTS

STRAIGHTLINE PERFORMANCE

FOR STRAIGHTLINE FRONT BUMPERS

- V-Bar is Designed to be mounted on Straightline Performance front bumper
- Ski-doo 850 owners can also mount on top of the nose cone above the bumper
- Polaris AXYS owners can also mount LED below their headlight
- A must have for the night rider who wants a unique look to set their machine apart from the others
- Waterproof LEDs are built using the highest quality components including the anodized housing
- The Night Cruiser is Plug and Play using OEM matched connectors for your machine
- Can be installed in under an hour, comes complete with mounting hardware and instructions
- All Night Cruiser Systems start with the V-bar which includes complete wiring harness and on/off switch

See Page 642 for additional Night Cruiser LEDs and wiring adapters

BRIGHT WHITE

- Extremely bright white LEDs provide additional styling and functionality for night riding

CHRIS BURANDT ULTRA LIGHTWEIGHT SEATS BY

SKINZ PROTECTIVE GEAR

A

B

Frameless Design

- Unique plank foam bonded with an over layer dual compound foam
- Made without a frame and seat pan to eliminate the most possible weight
- Only 2.5 lbs total weight. Velcro installation, no modification necessary
- SKINZ proprietary 4 way stretch fabric with rib construction on the top

OEM Replacement

- Simply remove the stock seat from the support and bolt this seat in place
- Hybrid carbon fiber pan combined with dual density foam and gripper top

See Page 258

BURANDT TRI-LITE SHORTY RUNNING BOARDS

- Innovative design utilizes a new triangle shaped outer edge tube
- Rear Billet machined diagonal mounting brace with extreme traction
- Most open design offered in the market
- Additional "Foot Pocket" billet machined optional add on pad which extends the rear diagonal brace for better/improved traction on rear of running board. Rider can add or remove
- Tapered inner mounting plate eliminates snow buildup on side of tunnel
- Open bottom triangle cross braces allow snow to blow through but offers maximum traction
- Ice stud traction screws on outer edge already installed for customer

TUNNEL ACCESSORIES FOR 2-UP SNOWBOARD AND SKIER SHUTTLING

Airframe ProTube 2-up Running Boards

- Designed to accommodate the needs of 2-up shuttling for snowboarders and skiers
- Constructed to provide a stable and secure platform for snowboard and ski boots used
- Built with “ProTube” outer tube for a higher degree of strength and weight reduction
- Width of the running board is extended towards the back a flatter passenger surface
- Include crosstube traction cleats and traction screws for a custom traction application

Tunnel Reinforcement

- Low cost insurance against tunnel buckling for backcountry shuttling and hauling
- Reinforces long tunnels made of thin materials for carrying larger loads on the rack

Footwell Blockers

- Keeps snowboard boots and ski boots from becoming wedged or stuck in the footwell

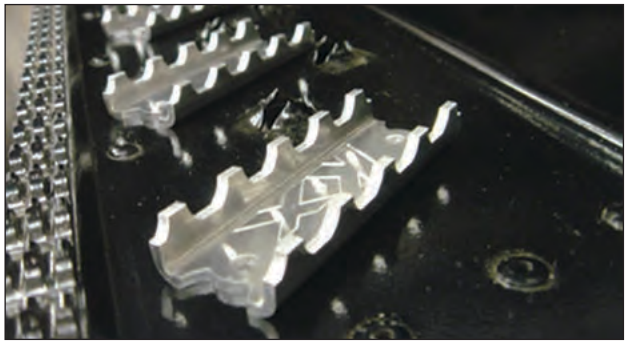
ALUMINUM EDGE RAILS

- Aggressive stamped aluminum design
- Adds strength to running boards
- One part number fits all models
- Natural aluminum won't scuff or fade

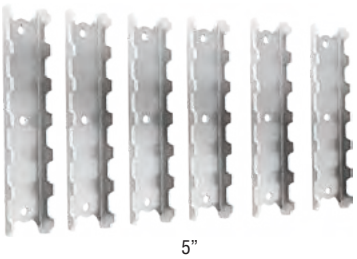
Description	Sold	WPS#	List
39" length	Pair	**10-1720**	**$28.95**



Starting Line Products, Inc.

RADIATOR REMOVAL KIT

- Reduces weight by 7.2 lbs
- Compatible with stock air box
- Includes hose splice, clamps and block off plate



Description	Year	SLP	WPS#	List
POLARIS				
700, 900 IQ RMK	'05-06	10-8	**44-16499**	**$34.95**

GRIP STRIPS

- Provides aggressive traction and a more level feeling platform
- Strips are 3.25” long x 1.25” wide x .5” tall
- Requires a flat surface on the running boards as large as the grip strips
- Installs with included rivets, care must be taken when installing on sleds with cooling systems under the running boards to avoid damaging coolers
- Package includes 6 strips, enough for one side - two packages per sled is most common, mountain sleds may need 9 strips per side (3 packages)

SLIDE RAIL EXTENSIONS

HOW TO CALCULATE REQUIRED EXTENSION		
Determine new track correct length:	Example 154 track is 54 pitches x 2.86” pitch	= 154.44”
Determine existing track correct length:	Example 144 track is 57 pitches x 2.52” pitch	= 143.64”
Subtract existing track correct length from new track correct length.	Difference	= 10.80”
The correct difference must be divided by 2 to determine extension length		/ 2
The required axle extension length is		= **5.40”**

NOTE: If drive sprocket diameter is reduced, more axle extension will be required. The final factor that may require more or less axle extension is the amount of shrinkage or stretch in the new track and the existing track.

Red	150-20103	$459.95
Yellow	150-20104	$439.95

(A) MTX

- Mountain specific design combines years of race experience with the demanding needs of today's mountain riders
- Works well on the trail and works best in the mountains
- 8" wide construction provides flotation in the deep snow
- Rounded outer ribs and contoured center keel provide easy maneuverability for trail riding
- Extra rear heel height for good carrying in reverse
- Optimized design to minimize weight with increased width
- Weighs in at 6.8lbs without runners
- Woody's trail series runners with 90° tip recommended

XPT

(A) RAZOR

- Best all around ski C&A offers
- This aggressive ski works best for trail applications
- Also works great for racing and mountain use
- Features traction grooves in the bottom of the ski for more control to grip the snow
- "V" shaped outboard keels eliminates darting on the trail maintaining straight line tracking
- 6" wide profile
- ISR approved adjustable flexible ski tip
- 7lb total ski and loop weight without runners
- Woody's trail series runners with 90° tip recommended

FOR A PAIR OF POWDERHOUND / ATTACK SKIS ORDER:

- (A) 1 Pair - Ski Bottoms
- (B) 1 Pair - Ski Loops
- (C) 1 Hardware Kit
- (D) 1 pair - Carbide Runners

(A) SKIS
SOLD PER PAIR

8" POWDERHOUND
The 8" Powderhound is the ultimate ski for deep snow! Its wide platform and newly designed intake scoop create extraordinary lift and flotation in deep powder. We gave this ski a deeper keel than our other models and updated the spindle mount location to improve handling and side hilling. The 8" Powder Hound is the most responsive and versatile ski available.

7" POWDERHOUND
Our original Powderhound model features a patented keel design with a wide platform and intake scoop for improved floatation and side hilling capabilities. The 7" Powder Hound handles great on the trail and in the powder!

MoHawk Ski™

(A) MOHAWK SKIS

SOLD EACH

The Mohawk is the next evolution in SLP ski technology. Specifically designed for the rider forward designed chassis of today. Predictable with aggressive bite as well as great flotation.

- 7 3/8in Overall width for flotation
- 6in Main bottom for trail control
- Lightweight flexible loop
- Hour glass shaped Rocker Keel™ with gull wing edges to eliminate darting
- Engineered flex pattern provides incredible control
- Mohawk shaped traction edges
- Powder control wings for maximum flotation and bite in loose snow

USI

STEP 1:

EPIC SKI KITS NEW

- Newest addition to the USI lineup of skis brings new innovation to the snowmobile ski world
- Great for mountain, backcountry, trail, and aggressive riding
- Adjustable aluminum ski saddle
- Allows you to widen or narrow ski stance
- Also allows you to lengthen or shorten ski stance
- Creates more options for optimal handling in different conditions
- Saddle adds durability, strength and positive feel with precise ski alignment

FOR A PAIR OF USI SKIS ORDER:

STEP 1: Ski Kit

STEP 2: Mount Kit

STEP 3: Carbide Runners

- Wide ski tip allows great flotation and helps get the ski on plane quickly
- Short center keel and cut raised tail allow for aggressive steering with less effort
- Mini rear keel helps straight line tracking
- Traction nubs add a no-slip platform
- Each kit includes 2 skis with black loops and saddles
- Epic 1.0 Dimensions: 1” keel depth, 41.25” length, and 7.25” width
- Epic 1.5 Dimensions: 1.5” keel depth, 41.25” length, and 7.25” width

Color	WPS#	List
EPIC 1.0		
Black	15-8240B	$469.99
White	15-8240W	$469.99
EPIC 1.5		
Black	15-8241B	$469.99
White	15-8241W	$469.99

STEP 1:

X2 TRIPLE THREAT SKI KIT NEW

- First snowmobile ski with interchangeable fins
- 2 different fin kits available for different riding styles, mild to wild
- Adjustable aluminum saddle allows you to change ski handling characteristics
- Saddle provides additional strength and durability
- Creates positive feel with precise ski alignment
- Mid center keel improves darting and tracking
- Elevated outer edges help ski with flotation
- Cut rear corners allow light steering effort
- Includes Stage 1 fin kit, 2 skis w/ black loops, and black saddles

DIMENSIONS: 1” Keel Depth, 42.5” Long x 6.75” Width

SEE FOLLOWING PAGE FOR SNOW EATER FIN KITS

CURVE MODULAR SYSTEM

Curve Industries modular ski systems are the leader in versatility and handling performance. Select from a number of proven options that tune your ski to the way you ride. The Curve platform is ultra-durable and robust. From Cross Country to Back Country and everything in between, champions choose Curve Industries - The Handling Experts.

FOR A PAIR OF CURVE SKIS ORDER:

- (A) 2 each - Ski Bottoms
- (B) 2 each - Ski Loops
- (C) 1 Hardware Kit
- (D) 1 pair - Carbide Runners

CURVE SKI KITS AVAILABLE ON PAGE 281
(MOUNT KITS SOLD SEPARATELY)

(A) XS SKI

SOLD EACH

Blast through the trails in total control. The XS platform from Curve industries offers low steering effort, laser sharp cornering, and increased flotation in all conditions. The XS is the ski of choice for Cains Quest, USCC, and freestyle champions alike. Use with Thrusters to tune cornering, flotation, and maneuverability. Use with the Leading Edge to tune tracking.

- Highly responsive on all trail snow conditions
- Ultra durable design UHMW
- Low steering effort
- Excellent flotation
- Available in many colors
- Resists Darting
- Thruster tuning
- Leading Edge tuning

White	Red	Blue	Yellow	Green	Orange	Neon Yellow	Hi-Viz	Fuchsia	List	Black	List

HARDWARE MOUNT KITS SOLD SEPARATELY, SEE PAGE 281

LOOP PLATES

SOLD PER PAIR

Add another dimension to your ski. The loop plates offer another dimension of aesthetics in the vertical sense to your Curve ski system. Drag racers can take advantage of the plate's ability to break the beam when competing for 1st place.

- Specially designed aesthetics
- Ultra durable UHMW construction
- Drag race applicable

Description	WPS#	List
XS Ski Loop Plates	**150-01901**	**$44.99**
XSX Ski Loop Plates	**150-01902**	**$44.95**

LEADING EDGE 2" AND 4"

SOLD PER PAIR

Ride straight as an arrow on icy or rutted trails. The Leading Edge from Curve Industries is a patented anti darting device that offers all the control of a dual runner with none of the draw backs. The LE mounts in front of and independent of the wear bar and exposes 2" or 4" of carbide cutting breaker rails to slice through the most rutted trails.

- High resistance to tracking/ darting
- Available carbide 2" single or 4" dual breaker rails
- Long lasting carbide
- Low cost
- Use in combination with your favorite wear bar

Description	WPS#	List
2" Leading Edge	**150-01961**	**$79.99**
4" Leading Edge	**150-01962**	**$99.99**
Leading Edge Template	**150-01969**	**$14.99**

THRUSTERS

SOLD PER PAIR

8" THRUSTERS

Cut in and hold the line. The 8" Thrusters from Curve Industries offers increased counter steer, flotation and response during technical maneuvers.

- Specially designed for ski tuning
- Ultra durable UHMW construction
- Increase counter steer
- Increase flotation
- Increase cornering
- Pair with 17" Thrusters for the ultimate powder side hill package

17" THRUSTERS

Aggressive handling that carves any corner. The 17" reverse Thrusters from Curve Industries offers aggressive cornering with increased maneuverability, and flotation.

- Specially designed for ski tuning
- Ultra durable UHMW construction
- Increase cornering
- Increase maneuverability
- Increase flotation
- Pair with 8" Thrusters for the ultimate cornering package

Description	Color	WPS#	List
8" Reverse Thruster	Black	**150-01942**	**$89.99**
17" Reverse Thruster	Black	**150-01941**	**$89.99**

Starting Line Products, Inc.

SKI SLIPS

SOLD PER PAIR

Will not fit Simmons or OEM offset skis
24" Straps are designed for Pilot DS 2/3 skis

UHMW is:

- Wear Resistant
- Super Strong
- Super Slippery
- Flexible even in extreme cold weather

Protects: Concrete floors, trailer decks, skis, and carbides

Special Features:

- Resists Carbide Cutting
- Easy on, easy off with no loose mounting hardware
- Universal fit for different ski designs

SKI-DOO		
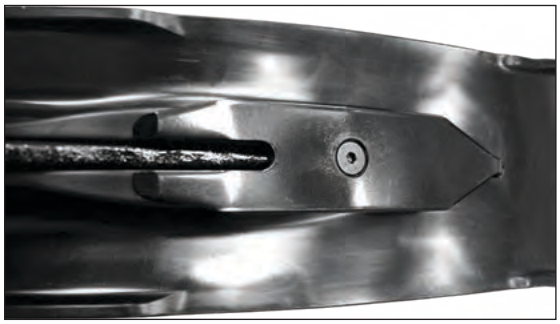
All Pilot skis - Rev XP/ XR/ XU	**15-20050**	**$13.95**

SKINZ PROTECTIVE GEAR

POLARIS SKI SPINDLE PAD



SOLD PER PAIR

This is a low cost solution to the problem of the rubber bumper on the bottom of the spindle on the Polaris RMK ski from breaking down and working into the holes in the ski. When this happens, the ski won't maintain its position when off the ground causing a potential problem. This machined filler pad just drops into the holes in the ski providing a solid flat surface for the rubber spindle bumper. No more problems getting what they call "Polariskied"

Descripton	WPS #	List
POLARIS		
Pair of rubber bumper pads	**241-03320**	**$79.95**

NAVIGATOR™ SKI PROTECTOR

This accessory was designed to protect your new skis from wear or fix slightly worn skis, while also reducing darting. The Navigator fits the skis listed below with any single runner in the industry that has up to a 1/2" host bar. Also compatible with Woody's dual runners.

BITEHARDER®
CARBIDE RUNNER AND STUD SHARPENING TOOLS

CARBIDE RUNNER SHARPENING TOOL

STANDARD SERIES

- Easily re-sharpen carbide runners providing the perfect edge every time you ride
- Use with a portable drill so you can re-sharpen wherever you are.
- Industrial diamonds allow over thirty sharpens. (Single runner count per tool)
- Provides the best edge for handling and performance
- See the tool in action at WWW.BITEHARDER.COM

PRO SERIES

- Designed for the snowmobile technician in a controlled shop environment
- Can be run at higher RPM's (10,000rpm minimum) using precision pneumatic grinder
- Higher quality diamond cutting media provide longer tool life
- Up to 200 sharpenings per tool (single runner count)

Description	WPS#	List
Runner Carbide Sharpener - Standard Series	16-9990	$64.95
Runner Carbide Sharpener - Pro Series	16-9991	$184.95
Stud Sharpener - Pro Series	16-9992	$149.95

RUNNERS

TOP-STOCK™
Top-Stock™ is an economical hard weld runner designed for extreme service or utility applications. The 1/2" host bar with hard weld increases the depth of the runner for added controllability. Recommended for deep snow or snowmobiles with 48 or fewer studs installed.

4" EXTENDER TRAIL III™
Woody's entry level carbide runner featuring four inches of 60° carbide and a 7/16" host bar. Whether you're looking for a replacement factory runner, a cutting edge in hard-packed snow and ice, or to improve your safety & handling, this option is for you. For use on snowmobiles with un-studded to lightly studded tracks.

6" TRAIL BLAZER IV™
This runner has six inches of 60° turning carbide beneath its ½" host bar – a great choice if you are looking for overall improvement in safety and handling, or to replace your factory runner. Use with a studded or un-studded track.

8" EXECUTIVE™
This single runner provides balanced traction for performance-based trail and cross country riders with studded tracks. Its 8 inches of 60° turning carbide is strategically placed under the ½" host bar to provide superior traction and protect the steel bar from excessive wear.

ACE™
This carbide runner is the tallest in the industry and has a narrow, rectangular profile for aggressive turning capabilities. Its 60° turning carbide, available in 4", 6", and 8", has been strategically placed to protect the runner and reduce darting by carving through existing grooves. Works great on Crossovers and in deep snow!

DOOLY™
Each of these dual carbide runners have two single runners mounted to a steel plate, producing a total of four contact lines on the terrain. These four blades with 60° carbide drastically reduce darting as they carve through existing grooves from single runners. This design spreads the PSI across two points, which extends the life of the runner and eases steering. When turning, only one blade per dual runner will contact the terrain, acting like a pair of single runners. Available with 4", 6", and 8" carbide per blade; exceptions exist for runners with short lengths. Sold individually.

SLIM JIM® DOOLY™
For riders who like the reduced darting feature of the original Dooly, but also want a lighter, performance-based runner for responsive cornering. Formed from one piece of steel, this dual runner comes with 4, 6, and 8 inches of 60° carbide on two narrow blades, providing extreme control. Sold individually.

SLIM JIM RUNNERS

SOLD INDIVIDUALLY/ONE PER SKI

SLIM JIM® DOOLY™

For riders who like the reduced darting feature of the original Dooly, but also want a lighter, performance-based runner for responsive cornering. Formed from one piece of steel, this dual runner comes with 4, 6, and 8 inches of 60° carbide on two narrow blades, providing extreme control. Sold individually.

ACE™ RUNNERS

SOLD PER PAIR

This carbide runner is the tallest in the industry and has a narrow, rectangular profile for aggressive turning capabilities. Its 60° turning carbide, available in 4", 6", and 8", has been strategically placed to protect the runner and reduce darting by carving through existing grooves. Works great on Crossovers and in deep snow!

BRINGING YOU THE BEST SERVICE, PRODUCT AND DELIVERY!!

DEUCE BARS™

SOLD EACH

- Patented design was the dominating bar of the Alaskan Iron Dog 2000 mile snowmobile race
- Utilizes the design benefit of the original Shaper™ bars concave sides
- Creates its own groove offering the advantage of no darting
- Eliminates traditional dual runner type drag
- One piece design is very durable and has proven long life and extended miles capabilities
- Unique design will not clog with snow, ice, rocks or snag obstacles
- Has 60° dual cutting carbides on each runner
- Sold each, must order 2 per machine

† 4 Bolt pattern, use in place of 5 stud bar, reduces steering effort							

Concave Sides

Provides better turning performance

STUD BOY SHAPER BAR

Designed by USI / Kevin Metheny
Patents Pending USA & Canada

SOLD PER PAIR

- Improves turning radius by 2' compared to 1/2" round bars in soft snow field testing
- Improves steering control on the trail
- 20% lighter than round bars
- Zinc plating resists corrosion
- Zinc plating eliminates paint in threads

ROUND BARS

SOLD PER PAIR

Our bars are made to the highest standard in the industry.

Large round host bars with virgin carbide inserts brazed to stay in place and hold an edge. Our bars are made to provide superior control on hard or icy surfaces and the deep profile adds additional control on soft conditions while providing long lasting durability.

- Front and rear carbide wear pads
- Extra long 3/8" diameter studs to fit with ski skins
- Angle cut at rear of bar to ease trailer unloading

RUNNERS

- 7/16" Carbon steel host bar, with a flat top to prevent "bar roll" during aggressive cornering
- Carbides are made of yg13 tungsten that provides the ultimate tensile strength for extreme durability and hardness to reduce chipping and increase longevity "
- The 90 degree angle of carbide into the pocket of our runners makes for very large cross sections compared to other designs"
- 1" Carbide segments allow for flex in ski without compromising carbide adhesion

- Engineered and test fitted to precisely fit your ski for easy install
- Chamfered ends to reduce catching when backing up and unloading
- Extended studs to allow for ski skins
- All necessary fastening nyloc nuts included
- All carbides and wearbars are coated in a black, rust preventative finish

*Some models may require drilling

Many competitors use a design that is mounted very shallow in the host bar.

Our diamond shaped carbides are set deeper into the host bar giving it more surface contact adhesion. This will make it less susceptible to side impact failure from rocks or gravel.

DEFENDER

- Features hard weld on contact area of host bar, giving it more depth to increase longevity.
- Less damaging to concrete and asphalt surfaces.

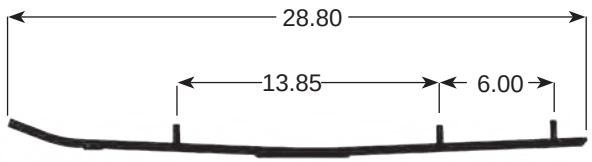
RIPPER FOUR 75

- Features 4" of 75 degree tungsten carbide .
- This carbide is less aggressive and has a longer wear period.
- Hard welded in the front and back of the carbide for extended durability.
- Recommended for use with lightly studded tracks or no studds.

SLASHER SIX60

- Features 6" of 60 degree tungsten carbide.
- Designed for improved handling and performance cornering.
- 1.5" Carbide wear pads in front and back with hardweld in between.
- Recommended for riders with a studded track.

X2 SIX60



- Features two 6" 60 degree carbides
- Providing the most extreme control, stability, and handling.
- Dual carbide style creates a new groove in the trail eliminating darting.
- Hardwelded in front and back for extended durability.

A-ARM KITS FOR ARCTIC CAT / YAMAHA

- Significant improvement in handling
- Improved sidehill and technical riding capability
- Corrected spindle location – Moved forward 3.5”
- Corrected Geometry for more predictability
- Includes billet machined shortened spindles for less drag
- Kits with shocks include the Fox Evol R Kashima coated shocks
- TIG welded 4130 chromoly construction
- Durable powder coated finish
- Includes all hardware and parts for complete installation

Application	Year	Stance	Shocks	WPS#		List
ARCTIC CAT / YAMAHA						
ProCross / Viper (17” shocks with special ends recommended)	`12-20	42”	No	**241-03420-42FB**	†	**$1499.95**

A-ARM KITS FOR ARCTIC CAT / YAMAHA

- Brand new design & technology offers the ultimate in front end suspension performance
- “ShockBox” design lowers the lower shock mount into the lower A-Arm lowering the roll point and lowers the center of gravity of the machine
- “ShockBox” lower mount is a CNC billet machined mount designed to allow high clearance lower A-Arm design
- “ShockBox” mounting design allows the use of a longer shock which keeps the shock in a more linear line providing better shock performance
- Significantly improved control and technical terrain capability
- Brand new designed spindle raises the ride height of the machine but also stabilizes camber gains & eliminates bump steer

ARCTIC CAT / YAMAHA						
ProClimb, ProCross, Ascender	`12-20	37”	No	**241-03420-37SBFB**	†	**$1799.95**
Also fits Yamaha Viper	`14-20					

† 17.5" shocks with spherical ends required for this kit

36” SPINDLE AND A-ARM KIT

- Popular upgrade for 2012-2015 models when used with OEM 36” lower a-arms
- 2lbs less weight, one pound of less unsprung weight per side
- Forged upper a-arms are very strong
- Forged spindles are extremely strong and shorter than OEM - Less chance of hitting an obstacle
- Lower mounting location for upper a-arms
- Very cool custom look that works great too

Ski Stance	Application	Upper Arms	Color	Year	WPS#	List
ARCTIC CAT						
36”	ProClimb, Ascender (except Turbo)	Billet Alum	Black	`16-20	**241-35011**	**$599.95**

XTREME LITE WEIGHT CHROME MOLY A-ARM KIT

- 2lbs lighter than stock
- Durable nickel plated finish
- When combined with rear skid arms total weight reduction is 8lbs
- Includes both upper and both lower A-arms

Ski Stance	Application	Year	WPS#	List
ARCTIC CAT				
40”	M-Series & Crossfire	`05-10	**241-3500**	**$399.95**

Concept High Performance Suspension By SKINZ

A-ARM KITS FOR POLARIS

- Significant improvement in handling
- Improved sidehill and technical riding capability
- Corrected spindle location – Moved forward 1.5”
- Corrected Geometry for more predictability
- Includes billet machined shortened spindles for less drag
- Kits with shocks include the Fox Evol R Kashima coated shocks
- TIG welded 4130 chromoly construction
- Durable powder coated finish
- Includes all hardware and parts for complete installation

A-ARM KITS WITH SHOCKS FOR SKI-DOO

- Plus forward Geometry moves the spindle forward to enhance machine stability and allows improved technical terrain handling
- Aluminum Upper A-arm & Durable 4130 Chromoly lower A-arms
- Includes upper A-arms, lower A-arms, steering rods, new, ride height spindles and all necessary hardware
- Note: upper A-arms are stress relieved and cannot be powder coated. Upper A-arms are coated with an extremely durable liquid Cerakote finish. Lower 4130 Chromoly A-arms are powder coated
- Ultra Lightweight kits feature stress relieved aluminum lower A-arms instead of Chromoly and additional machining on the spindles to further reduce weight

Viper	`14-17	241-3350	$29.95

INBOARD WHEEL KIT

FOR ARCTIC CAT

Want to take your front stock idlers off without abnormal hi-fax wear? This is the kit you need. This remedies the track hitting the shaft on '05 and '06 models and great addition for 2-wheel kits for the '05 - '08. Fits '05-UP Crossfires and M Series.

Application	Year	WPS#	List
ARCTIC CAT			
M-Series and Crossfire	`07-11	241-3340	$89.95
ProCross, ProClimb NON Alpha	`12-19	241-3340	$89.95
YAMAHA			
Viper	`04-19	241-3340	$89.95

10" VORTEX IDLER WHEELS

NEW

- Great replacement for stock rear idler wheels on Arctic Cat Alpha single rail models
- Can also be used on other models, axle relocate may be required
- Unique fan style design creates a "vortex" to help with snow movement within the suspension
- High strength UHMWPE material
- Weighs less than 1 pound
- Accepts 6205 or 6304 bearings

NOTE: Arctic Cat OEM Alpha rear idler wheel bearing will not work with this wheel

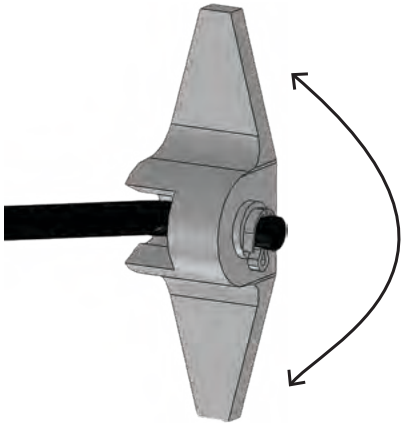
ICE SCRATCHER KIT

- Improves engine cooling on hard pack snow
- Improves hyfax life on hard pack snow
- CNC machined billet aluminum mounting posts
- High grade, high tension spring steel scratchers
- Quick and simple installation
- Detailed mounting instructions printed on back of package
- Hooks onto rails until conditions require use

Description	WPS#	List
Ice Scratcher kit	**15-6395**	**$45.95**
RH replacement spring	**15-6395R**	**$15.95**
LH replacement spring	**15-6395L**	**$15.95**



RAIL MOUNTED REVERSIBLE ICE SCRATCHERS

- Twice the spray of traditional scratchers
- Durable scratcher/ski made of 316 stainless steel
- Scratcher/ski rotates to allow reverse operation

Description	WPS#	List
Reversible Ice Scratcher Kit	**15-6405**	**$74.95**
RH replacement spring only	**15-6405R**	**$19.95**

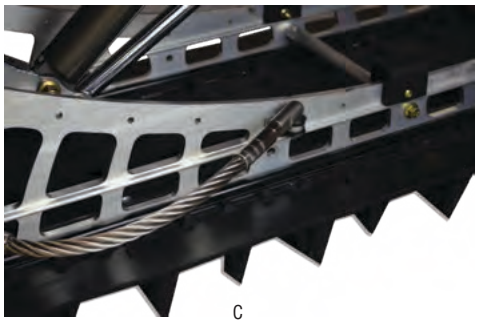
Pair	15-6400	$49.95

A

PERFORMANCE ICE SCRATCHERS



- The only ice scratcher that uses a replaceable carbide tip
- Uses “official” custom carbide studs built by Woody’s
- Full stainless wire rope and ends for lifetime use
- Designed to be run down at all times, but can be mounted on the rails if needed
- Replaceable and affordable carbide scratcher tip
- Large mounting base to avoid rail wear
- Long version for bulkhead, A-arm, or ski mounting to aid in cooling
- Long version recommended as a rail mount for all mountain sleds with 3” and taller tracks to aid in cooling
- Short version recommended for rail mounting on tracks under 3” lug height

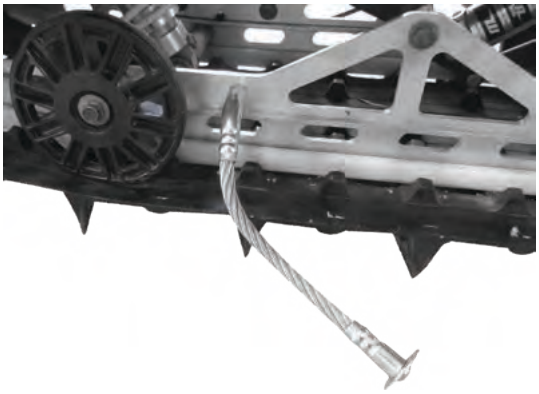
DURA FLEX REVERSE - COMPATIBLE SCRATCHERS U.S. PAT #7,918,298

BETWEEN THE LINES Designs

MADE IN THE USA!

REVERSE - COMPATIBLE SCRATCHERS



- Ultimate engine cooling and slider lube
- Unmatched performance and weight
- Works with all reverse and non-reverse equipped snowmobiles
- Pre-assembled for one-bolt mounting
- Virtually indestructible 7/16" zinc plated wire rope for increased down pressure
- Improved crimps for greater hold
- Hooks and stays on rail when not in use
- Knurled mounting surface eliminates spinning and loosening on the slide rail
- Hi-Roller recommended for track heights 2-1/2" and taller
- All three tip designs are interchangeable with both cable lengths

DUPONT™ SLIDE RUNNERS W/ VESPEL®

- Replacement hyfax with DuPont™ Vespel® inserts
- Vespel® inserts reduce friction and heat between hyfax and track
- Reduced friction can add speed when running on hard pack snow
- Works well on long track/ mountain machines with deep lug tracks and minimal bogie wheels
- A must when riding in low snow conditions and deep lug tracks on trails

HIPERFAX™

This remarkable patented material reduces heat and friction for increased runner life and higher speeds on hard pack snow or with high profile tracks. Reduced friction also improves fuel economy.

Note: For some older models Hiperfax cannot be cut to length. Newer models as listed by track length have a shorter insert and can be cut without cutting the insert. Order correct length for intended application.

Application	Track length	Hiperfax Length	Black	List

REPLACEMENT SLIDE RUNNERS OPTIONS

SOLD EACH

- All SP1 Slides are made of virgin UHMW-PE (no used or reground material) and come pre-drilled
- Rotary extrusion method results in a straighter and more dense slide compared to other manufacturing methods
- Wear indicator groove makes it easy to see when it is time to replace worn slides

TRAC-LINK™

LIMITER STRAP ADJUSTER

- Quick and easy adjustment to traction and balance characteristics of any make and model snowmobile that employs conventional limiter-straps
- Replaces the OEM limiter-straps with an ultra-strong Goodyear® strap combined with the Patent-Pending aluminum adjustment mechanism
- Gives 3 full inches of infinite adjustment with a simple turn of a 1/2" or 13mm wrench
- Weighs just 15 oz including the strap and all necessary hardware

Description	WPS#	List
TRAC-LINK Kit	**54-3280**	**$88.95**

EZ-RYDE

HELO TRANSFER CONTROL SYSTEM

- Increased suspension travel
- Controls weight transfer better
- Adds additional damping to the suspension
- Allows the back of the rear suspension to rotate, similar to the CarveTM suspension
- Eliminates the sharp jolt from the suspension bottoming out
- Mount Kit and Helo sold separately

Installed

SKINZ PROTECTIVE GEAR

T-MOTION DELETE KIT

241-03972

- Kit eliminates the T-Motion feature on Ski Doo snowmobiles
- Kit includes new rear arm and lower scissor
- Mounts like OEM, no modification necessary
- Rear lower scissor has integrated mount locations for ARC Kit
- ARC kit available at lower cost due to mounts being integrated into the lower scissor
- Creates stability and control that will take your technical riding to the next level
- With TM-X, your machine is concise and predictable which will build confidence while riding for navigating mountain terrain
- Eliminates the erratic behavior of the machine for side hilling and trail riding
- Durable powder coat finish on torque arm and polished lower scissor

Application	Year	WPS#	List

241-03972 Installed with ARC

T-MOTION LIMITER

- Precision Machined Delrin spacers
- Installs on each side of the swivel ball
- Limits T-Motion movement by up to 90%
- For the full on backcountry technical rider
- Allows rider to maintain a solid edge
- More predictable and dependable attitude
- Easy to install - no modification necessary
- Spacer life 300-500 miles (depending on riding style)
- Sold 4 Sets (8 spacers) per package

Application	Year	Sold	WPS#	List

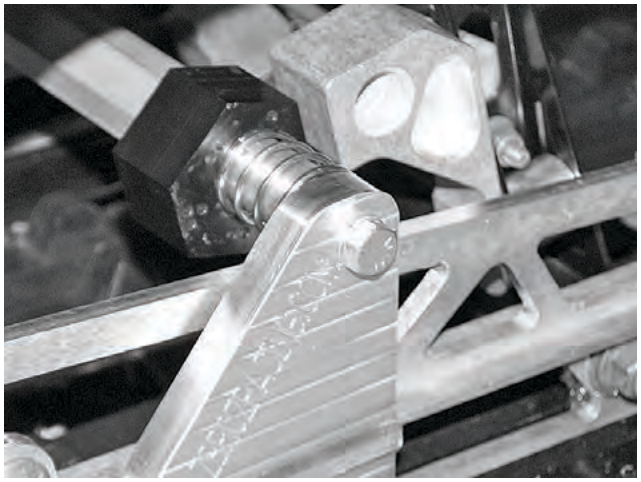
T-MOTION LOCKOUT



- Allow elimination of side to side motion of the Ski Doo T-Motion skid for technical side hilling
- Reduces the tendency for the skid to want to climb up the hill while your trying to hold a steady side hill
- It tracks better on a side hill and improves your ability to hold a steep side hill especially in snow conditions where there are crust layers and wind blown layers
- Also improves your on trail and bump performance
- By locking out the T-Motion you keep the skid level rather than the side to side motion around a corner keeping the machine flatter and more stable in corners and off jump faces
- Built from 6060 T6 Billet Aluminum
- Durable and light weight
- Includes all installation hardware
- Install kit in 30 minutes or less with basic hand tools

ARC - ELECTRONIC
ADJUSTABLE REMOTE COUPLING
REAR SUSPENSION CONTROL KIT

- ARC Electronic provides the same coupled/uncoupled control of your OEM rear suspension but with a new, faster, & dynamic control system that allows the rider the quickest switching of the rear suspension ever offered
- A new electronic switch which is positioned on your left side and is engaged and disengaged with your thumb while riding. This new switch offers the three position control of the rear ARC shock and your ability to switch on the fly to control your machine to suit your riding terrain has never been more dynamic
- This new system is controlled by a rechargeable lithium Ion battery located under the hood and electronically engages the ARC shock. A wire harness replaces the cable actuator and the operation is seamless and smooth
- A green indicator light located by the thumb switch lets the rider know the system is operational
- The installation is easy & all parts are included for a complete installation
- This unit is the answer for anyone riding aggressively and/or those machines with turbo systems or superchargers
- ARC absolutely controls the attitude of the machine giving the rider the ability to navigate the machine through the terrain and have control over the power output of the snowmobile
- Once you ride with ARC, you will not be able to ride without it
- Patented design

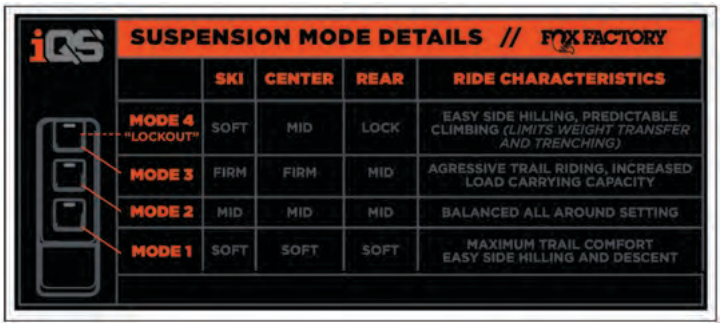
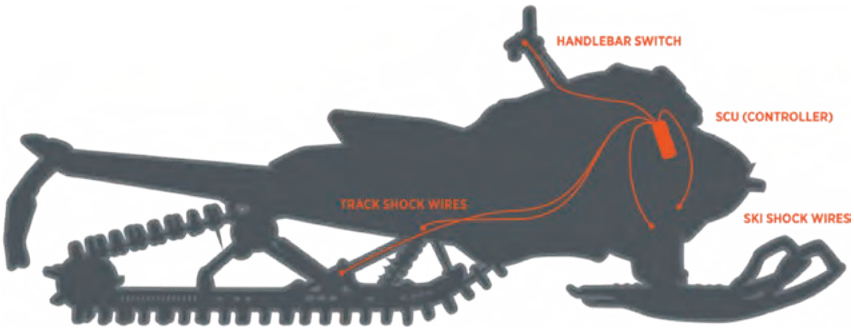
IQS SHOCK KITS



Fox's new Intelligent Quick Switch allows you to select damping profiles with a handlebar mounted switch. No more counting clicks with the electronic modal damping control, SCU (Suspension Control Unit). Available for Polaris and Ski Doo models and sold as a complete kit

- Full range adjustment takes place in less than one second
- Wide range adjustment characteristics
- Enhances safety, efficiency, control, convenience, performance
- No need to count clicks
- Select profiles on-the-fly, permitting adjustments to suit varying terrain as you ride
- Tangible improvements in ride handling
- Electronic modal damping control via Bosch
- SCU (Suspension Control Unit)
- iQS Mode Features & Control Benefits
- Four rider-controlled modes
- Modes selected on-the-fly via handlebar-mounted switch
- LED backlit buttons indicate active suspension mode
- Controls are weather-resistant



530-1250 530-1150

- iQS System Includes:
- Two (2) FOX iQS front ski shocks
- One (1) FOX iQS center track shock
- One (1) FOX iQS rear track shock
- Bosch SCU (suspension control unit)
- Plug n Play Wire harness
- Handlebar switch
- Cable guards and mounting hardware
- WPS# 530-1250 will come with 1.5 Zero iQS shocks
- WPS# 530-1150 will come with 1.5 Float 3 iQS shocks

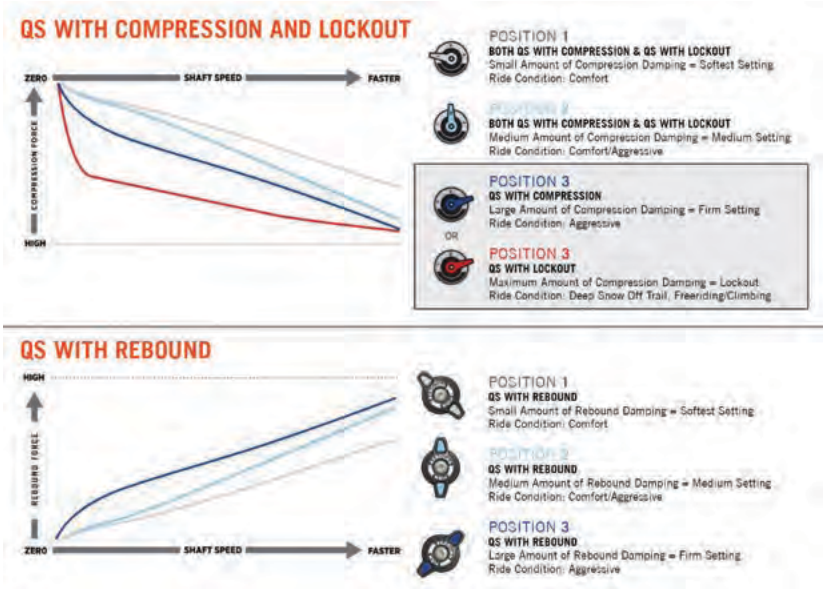
QS3 REAR SHOCK KITS

Kits feature FOX's latest QS technology

NOTE: Depending on application, some rear kits may only include 1 QS style shock

2019 QS3 OVERVIEW:



Quick Switch Technology - 3 Position knob to quickly switch between settings

AVAILABLE IN 3 CONFIGURATIONS

- Quick Switch Rebound (QS-R)
- Quick Switch Lockout (QS-L)
- Quick Switch Compression (QS3)

Benefits

- Simplified adjustment without taking off your gloves
- No more counting clicks or detents in freezing conditions
- Significant changes in ride and handling
- Rebound adjustments result in quicker recovery from consecutive hits and increased traction with more preload.
- Lockout setting results in easier side hilling and predic able climbing (limits weight transfer and trenching)
- Available on select Mountain rear tracks only

QS3 SKI SHOCK KITS

2019 QS3 OVERVIEW:

Quick Switch Technology - 3 Position knob to quickly switch between settings

AVAILABLE IN 3 CONFIGURATIONS

- [NEW] Quick Switch Rebound (QS-R)
- [NEW] Quick Switch Lockout (QS-L)
- Quick Switch Compression (QS3)

Benefits

- Simplified adjustment without taking off your gloves
- No more counting clicks or detents in freezing conditions
- Significant changes in ride and handling
- Rebound adjustments result in quicker recovery from
- Consecutive hits and increased traction with more preload.
- Lockout setting results in easier side hilling and predictable
- Climbing (limits weight transfer and trenching)
- Available on select Mountain rear tracks only

2.0 ZERO® QS3-R™ SKI SHOCKS

The all-new FOX 2.0 ZERO QS3-R front ski shock is designed for riders who prefer a traditional coil-over shock. With the FOX QS3 tool-free adjuster, you can quickly choose from 3 specifically calibrated ride control settings on the fly. Its wide range of compression adjustment provides noticeable changes of ride quality and handling without the complications of counting detents. Choose a QS3 setting that gives you the most confidence, comfort, or handling characteristics with just a "flip of a switch." Coupled with features like a genuine Kashima Coated 6061-T6 aluminum body, super-finish hard chrome steel shafts, FOX Ice Scraper Technology (FIST), adjustable velocity sensitive damping with Hi- flow damping piston, and wide range rebound.

SPECIFICATIONS
- Position: Front Ski Shock
- Sled type: Trail
- Spring: Coil

ADJUSTMENTS
- 3 Position Quick Switch
- Wide-range rebound adjustment
- Spring Preload

FEATURES
- Genuine Kashima Coat
- 2.0" bore shock body
- FOX Ice Scraper Technology (FIST)
- Aerospace-grade PTFE-lined spherical bearings
- High-flow velocity-sensitive damping
- Fully rebuildable and revalveable

FLOAT® 3 EVOL™ RC2 SKI SHOCKS

With the first-ever double backflip on a snowmobile, world record distance jump and other milestone victories, the FLOAT 3 EVOL RC2™ has definitely earned some bragging rights. Virtually every world-class snocross racer uses them and its win column includes practically every snocross and cross country race on the calendar. With external adjustments like dual speed compression (DSC), wide range rebound and dual air spring allowing you to adjust the EVOL and main air chambers independently controlling ride height, roll control and bottom-out. The FLOAT 3 EVOL RC2 can take anything and everything you can throw at it.

FEATURES

- Sold per pair
- Genuine Kashima Coat
- Samurai Sealing System (SSS)
- EVOL Air Technology
- Aerospace-grade PTFE-lined spherical bearings
- High-flow velocity-sensitive damping
- Chrome silicone negative spring
- Fully rebuildable and revalveable
- Ultra-lightweight
- Lose up to 6 pounds off your sled (when replacing coil spring shocks)

ADJUSTMENTS

- Infinitely adjustable dual air spring
  - ~ MAIN Air Chamber (ride height)
  - ~ EVOL Air Chamber (bottom-out/roll control)
- Wide-range rebound adjustment
- Dual-Speed Compression (DSC) adjustment

FLOAT® 3 EVOL™ QS3-R SKI SHOCKS

The all-new the FLOAT 3 EVOL QS3-R will be sure to change the way you ride. With the FOX QS3 tool-free adjuster, you can quickly choose from 3 specifically calibrated ride control settings on the fly. Its wide range of compression adjustment provides noticeable changes of ride quality and handling without the complications of counting detents. Choose a QS3 setting that gives you the most confidence, comfort, or handling characteristics with just a "flip of a switch." Coupled with features like a Genuine Kashima Coated 6061-T6 aluminum bodies, dual air spring allowing you to adjust the EVOL and main air chambers independently controlling ride height, roll control and bottom-out, adjustable velocity sensitive damping with Hi- flow damping piston, and wide range rebound.

FEATURES

- Sold per pair
- Genuine Kashima Coat
- Samurai Sealing System (SSS)
- EVOL Air Technology
- Aerospace-grade PTFE-lined spherical bearings
- High-flow velocity-sensitive damping
- Chrome silicone negative spring
- Fully rebuildable and revalveable
- Ultra-lightweight
- Lose up to 6 pounds off your sled when replacing coil spring shocks

ADJUSTMENTS

- Infinitely adjustable dual air spring
  - ~ MAIN Air Chamber (ride height)
  - ~ EVOL Air Chamber (bottom-out/roll control)
- Wide-range rebound adjustment
- 3 Position Quick Switch

FLOAT® 3 EVOL™ R SKI SHOCKS

Take your riding to the world-class level of performance and adjustability with the FLOAT 3 EVOL R. Used by pro athletes wherever snow can be found, the spring rates can easily be adjusted externally in the main chamber for your riding style and terrain. Fine-tune your plushness independent of your bottom-out resistance and roll stiffness with the EVOL chamber, and get the extra control you need with an external rebound adjustment. The application-specific calibration will soak up even the hardest terrain for all types of riding styles. Fine-tune the "inside ski lift" for your trail sled, and set your tip over and turning capability for your mountain sled or crossover. Stiffen it up for a trail race, and soften it to ease into those powder turns, all with a few simple external adjustments made by hand.

FEATURES

- Sold per pair
- Genuine Kashima Coat
- Samurai Sealing System (SSS)
- EVOL Air Technology
- Aerospace-grade PTFE-lined spherical bearings
- High-flow velocity-sensitive damping
- Chrome silicone negative spring
- Fully rebuildable and revalveable
- Lose up to 6 pounds off your sled (when replacing coil spring shocks)

UPGRADE KITS

- Complete kit to upgrade FLOAT®, FLOAT® II, and Float® III shocks to FLOAT EVOL™
- With this kit, you will gain a plush bottomless feel without altering ride height or roll stiffness
- When combined with the infinite adjustability of the main air spring, the EVOL™ air chamber allows the shock's spring curve to be tuned for any conceivable rider weight and/or terrain condition
- EVOL™ air chamber regulates spring rate in the final portion of the stroke and controls the bottom-out characteristics of the shock
- Adjusting this pressure is similar to changing the spring rate on a coil over shock
- The rear track kit for the Arctic Cat M-Series will turn your sled into a mogul soaking, trail taming machine
- In addition to the added plush feel on the trail, our special valving will help get your sled on top of the snow with its improved weight transfer characteristics
- 530-0114 Rear track kit works on all Arctic Cat models with stock FOX Zero Pro shock in the front track and FOX FLOAT® in the rear track shock

	Description	WPS#		List
A	All Arctic Cat and Yamaha models with OEM FLOAT® ski shocks-Bushing Style	530-0112		$350.00
B	Arctic Cat Rear Track Upgrade Kit, M-Series '07-13	530-0114	*	$150.00
C	Rear Float Evol Adapter, fits Arctic Cat M-Series with OEM Float® II Rear Track Shock	530-0118		$250.00
D	Float 3 Evol kit for machines with OEM Float® III ski shocks-Bushing Style	530-0116		$350.00
D	Float 3 Evol kit for machines with OEM Float® III ski shocks-Spherical Style	530-0117		$350.00
E	Float 3 Evol kit for rear track; comes with 90 degree adapter; Fits all Arctic Cat M-Series with OEM Float 3 Shock	530-0123		$250.00

* Due to different valving options, valve shims must be ordered separately for this kit

QS3 UPGRADE KIT

- 3 Position on-the-fly compression adjuster
- Upgrade your Fox compression adjustable shock to the QS3 tool-free adjuster
- Allows for simple and repeatable suspension setting changes on the fly
- Wide range of compression adjustment provides noticeable changes of ride quality and handling without having to count detents
- Just "flip the switch" to adjust your shock for different riding conditions providing the ultimate in confidence and comfort

Description	WPS#		List
.625" Shaft	530-0119		$100.00
.500" Shaft	530-0124	*	$100.00

* Works on Float Evol RC2

SHOCK MOUNTING REDUCER KITS

- Depending on application, your FLOAT® shocks will have either spherical bearings or bushings & sleeves at the mounting points
- Sold per shock

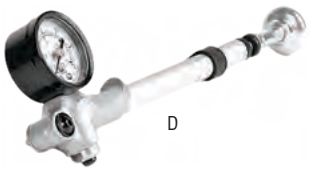
Bearing Assembly

Description	WPS#	List
Bearing assembly .960" long, works on all non air style shocks including Arctic Cat ACT shocks (1.459" bore, 1/2" shaft w/ FIST)	530-9135	$42.13
Bearing assembly 1.2" long, mainly used on Arctic Cat models with oem Fox Shox® (1.459" bore, 1/2" shaft w/ FIST)	530-9134	$41.68
Bearing assembly, OEM replacement for 1/2" shaft and 2.0" bore, found on Arctic Cat Sno Pro models (1.834" bore, 1/2" shaft w/ FIST)	530-9136	$72.08
External bearing glide ring, solid 1.459" bore	530-9171	$9.92
Damping piston, 3 port 1.459" bore x 0.377ID x 1.355 gland OD	530-9170	$14.95
Shaft bumper, 1.75" for 1/2" shaft	530-9132	$7.54
Shaft bumper, 1.00" for 1/2" shaft	530-9131	$10.00
Nitrogen pellet assembly	530-9121	$19.07
Schrader valve	530-9103	$32.40
Float 3 air shock cap w/ o-ring	530-9174	$15.24
Gen 2 Float Evol air cap kit: 2 gold caps and o-rings	530-9176	$30.00
Gen 1 Float Evoll air cap kit: 1 lg, 1 sml gold cap and o-rings	530-9175	$30.28
Back up plate, 0.62"OD x 0.38"ID x 0.93" thick	530-9163	$2.35
Bleed shim, 3 port 1.3"OD x .375"ID x 0.004" thick	530-9164	$2.11
Bleed shim, 3 port 1.3"OD x 0.375"ID x 0.015" thick, 13 slot	530-9165	$1.73
Bleed shim, 6 port 1.3"OD x 0.375"ID x 0.012 thick, 13 slot	530-9166	$3.09
Bleed shim, 6 port 1.3"OD x 0.375"ID x 0.004" thick 13 slot	530-9167	$3.51
Bleed shim valve, 6 port 1.3"OD x 0.375"ID x 0.008" thick	530-9168	$2.35
Bleed shim valve, 3 port 1.3"OD x 0.375"ID x 0.012 thick	530-9169	$4.54
O-Ring seal, standard (-026) .070"C.S. x 1.239"ID	530-9162	$1.00
Top out plate 1.125"OD x 0.378"ID x 0.093" thick	530-9172	$2.35



AIR PUMP

- Works for all FOX FLOAT® and FLOAT EVOL™ style shocks
- Makes adjusting air pressure easy and can be done on the trail
- Features bleed valve for minute adjustments
- Dual sided pump has one side for FLOAT® and one side for EVOL™
- Digital pump works from 0-300 psi for minute adjustments

A

C

B

D

	Description	WPS	List
A	Dual Sided	530-9102	$41.28
B	Digital	530-9608	$92.82

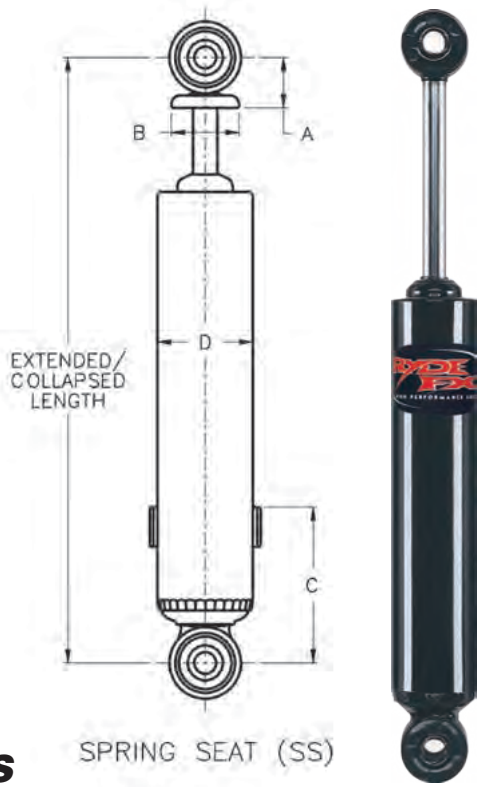
EXIT SHOCKS

COIL OVER KITS

- Fits all Ski Doo T-Motion 2012 and Up - 2 lbs lighter than stock
- Convert your stock torsion spring T-Motion rear suspension to a Rear Coil Over Shock
- Comes with your option of EXIT X1 or X2 Series Tunable Rear Shock
- Unleash Full Pivot Performance of the Ski Doo T-Motion System
- Improved Suspension Geometry for better ride quality
- X1 shock is Compression adjustable
- X2 shock is both compression and rebound adjustable

Application	Year	Shock	WPS#	List
XM, Gen 4, All Summit Medels with T-Motion rear skid	`13-19	X1	**249-90850**	**$698.95**
XM, Gen 4, All Summit Medels with T-Motion rear skid	`13-19	X2	**249-90851**	**$798.95**



8200/8300 SERIES SHOCKS

High quality, orifice carrier, steel body

$135.95 SOLD EACH

- Patented Low Fade Orifice Carrier: Provides a seamless transition from a smooth low speed ride, to firm, well-controlled high speed handling
- Gas Cell: Eliminates foaming of the oil, providing consistent performance throughout the life of the shock
- Microcellular Urethane Bumper: Stays soft even at the lowest temperatures and eliminates hard bottoming where applicable
- Ice Scraper: Scrapes ice off the rod, which prevents moisture from entering the shock and contaminating the oil where applicable

9200 SERIES SHOCKS

High pressure gas, rebuildable, lightweight aluminum body

$298.95 SOLD EACH

- One piece extruded aluminum cylinder combines solid strength, greater gas retention and lightweight performance
- Anodized aluminum shock body for superior corrosion resistance
- Microcellular urethane bumper stays soft even in extreme conditions to prevent hard bottoming where applicable
- Integrated ice scraper within the cylinder head assembly keeps ice off the rod, which prevents moisture from entering the shock and contaminating the oil
- Raised valve seat piston continuously flushes discs and orifices of potential contaminants, eliminating the possibility of undesirable damping
- Large diameter IFP O-ring increases the allowance of higher gas pressure without compromising the seal which prevents scoring of cylinder, as well as providing long life consistency in damping
- Super finished chrome rod provides not only an improved surface finish for longer seal life but a thicker coating of chrome that is resistant to pitting and corrosion

HYGEAR SUSPENSION.com

DUAL RATE SPRING KIT

- Fits Ski-Doo models with R-Motion rear suspension
- Upgrades OEM front track shock spring
- Converts to adjustable dual rate spring kit
- Allows for changes in progression of the spring kit for softer or stiffer setting
- Simply flip the spring separator for softer or stiffer setting
- Easily replaces OEM tender spring known to break often due to over travel in shock configuration

Broken OEM Spring

Description	WPS#	List
SKI-DOO		
Pro 40 Shock	**530-98141**	**$84.95**

EXIT SHOCKS

DUAL RATE SPRING KIT

- Designed to be used with OEM ski shocks
- Will also work with Exit shocks and ARSFX A-Arm kits
- Dual rate kit gives nice plush ride and allows rider to hit terrain faster and jump without bottoming
- 2 versions, standard and aggressive depending on riders needs
- Includes spring collar adapters, spring dividers with built in crossover, and tender springs
- Kits will accommodate both ski shocks

Damaged wear band

GYTR PISTON AND WEAR BAND

- Replaces the non serviceable wear band on GYTR and Soqi 40mm shocks found in Yamaha snowmobiles
- Includes OEM calibration piston and wear band
- Sold per shock

WPS#	List
530-98135	$49.95

SHOCK BUMPER KIT

- Fits Fox Float® 1 shocks
- Extends life of shock and internal parts
- Includes anodized aluminum insert and rubber bottom out bumper

Shocks with the original TOP CAP and seal head can get damaged by repetitive bottoming to the point that the seal head fails and the shock no longer operates properly. This kit improves this flaw and service life of the shock

WPS	List
530-98134	$14.95

Broken Housing

SKI-DOO SHOCK ADJUSTER HOUSING

- Replaces adjuster knob housing on Ski-Doo MXZX, Freeride, and XRS models
- Allows for quick replacement of damaged parts not available through OEM channels
- OEM adjuster intervals are reused
- Works well with Hygear heavy duty replacement knob, WPS# 530-98136
- Sold per shock

WPS#	List
530-98137	$69.95

SKI-DOO BILLET SHOCK ADJUSTER KNOB

- Replaces commonly broken adjuster knob found on Ski-Doo MXZX, Feeride, and XRS
- Large size for easy adjustment
- Low profile for increased clearance reducing risk of breakage of adjustment arbor captures entire valve body for increased strength
- Heavy duty anodized 6061 high grade billet aluminum construction
- Works well wit Hygear housing, WPS# 530-98137
- Sold per shock

WPS#	List
530-98136	$24.95

HYGEAR SUSPENSION.com

HEAVY DUTY ICE SCRAPER

- Fits HPG and KYB 12.5mm and 16mm threaded seal heads
- Direct OEM replacement
- Billet brass construction provides superior protection over OEM part
- Sold per shock

Heavy duty brass ice scrapers are a replacement item not available from the OEM manufacturer. Once the seal head bushing is replaced, the OEM ice scraper is destroyed in the process. The heavy duty replacements are more effective at protecting the seals and bushing in the harshest conditions.

Description	WPS#	List
KYB/ HPG 16mm Ice Scraper	530-98130	$14.95
KYB/ HPG 12.5mm Ice Scraper	530-98131	$14.95

AXYS BODY SPRING PROTECTOR

Fits Polaris Axys chassis, WILL NOT fit AXYS RMK models

OEM springs deflect into shock body and causes unsightly and damaging wear. The wear protector threads onto the bottom of the shock to provide a frictionless surface to protect both the shock and the spring

WPS#	List
530-98133	$29.95

HYGEAR 3000 PSI STAINLESS VALVE CORE

- 300psi valve cores
- Machined from stainless steel for superior corrosion resistance
- Replaces aluminum inflation valve found on Fox Float shocks that can be worn due to frequent air pressure adjustments
- Direct replacement for Fox, Custom Axis, and many other shocks
- Includes cap
- Sold Each

WPS	List
530-98132	$19.95

REPLACEMENT SHOCK SHAFTS AND EYELETS

- Direct OEM replacement
- OEM parts are not available outside of complete units
- Only hard chrome replacement shaft on the market
- Billet steel eyelets are stronger and more accurate then OEM
- All parts are coated for corrosion resistance
- Eyelet Press Tool designed to assist with removal of the OEM HPG vulcanized rubber bushing for reuse in the replacement eyelet

HOW TO ORDER THE PROPER SHAFT:

1. Identify if your eyelet is removable or welded to the shaft (most are non-removable)
2. If your eyelet is removable, reference diagram A for how to measure your shaft
3. If the eyelet is non-removable, match your eyelet to available options
4. Reference diagram B to measure length
5. Match closest available length from Shaft and Eyelet Total Length Cross Reference chart

HYGEAR SUSPENSION.com

12.5MM AND 16MM REPLACEMENT SHAFT BUSHINGS

- OEM replacement shaft bushings for HPG and KYB shocks with 12.5mm and 16mm shafts
- Common wear item not available from OEM manufacturers
- Sold in pairs

ID x OD x Length	WPS#	List
16mm x 18mm x 15mm	**530-98092**	**$12.95**
16mm x 18mm x 12mm	**530-98091**	**$12.95**
12.5mm x 14.5mm x 8mm	**530-98093**	**$12.95**
12.5mm x 14.5mm x 10mm	**530-98094**	**$12.95**
12.5mm x 14.5mm x 12mm	**530-98095**	**$12.95**

NOTE: If the shaft bushing is replaced, the ice scraper must also be replaced, WPS# 530-98130 for 16mm shafts and WPS# 530-98131 for 12.5mm shafts. These bushings also fit shocks that do not use the ice scraper listed

HEAVY DUTY ARCTIC CAT EYELET BUSHING

- Replaces OEM plastic bushing on center shocks of Arctic Cat snowmobiles
- Fits Fox shocks that use 7/8" cross shafts commonly found on Arctic Cat
- Constructed of heavy duty steel with a Teflon coating
- Prevents wear to shock eyelet by skid cross shaft
- Sold each

WPS#	List
530-98090	**$12.95**

FRONT LOWERING KIT

- Addresses issues with inside ski lift while cornering on Polaris AXYS Pro-X and Ski-Doo MXZ XRS snowmobiles
- Lowers the front end of the sled without having to rebuild the shock and install travel limiting spacers
- Adjustable ride height system allows for easy way to lower ride height
- Works with the standard OEM springs
- Improves cornering
- Adjustable ride
- Sold as a pair for both front shocks

Application	Year	WPS#	List
POLARIS			
AXYS Pro-X	Through `18	**530-98087**	**$84.95**

AIRPRENE SHOCK COVERS

- Perforated neoprene allows venting to keep shock cool
- Durable protection from rocks, sticks, etc.
- Protects shock shafts from pitting and marring
- Breathable fabric allows moisture to evaporate
- Quick and simple Velcro® installation

Description	WPS#	List
FOX Float Shocks	12-18305	$69.95

Small cover fits springs up to 3”x11”

SHOCK COVERS

- Protects shocks from dirt and debris
- Made from durable 600D Nylon with extra wide hook-n-loop closures and vent holes
- Fits springs up to 3” in diameter x 11” long

WPS#	List
12-1832	$10.00 ea

CAMSO ROAD FREE COMPANY

"These tracks are developed by snowmobilers, for snowmobilers in every imaginable segment. What a difference!"

— Jim Kedinger,
who has 35 years' experience testing and developing snowmobile tracks.

ENGINEERED FOR PEAK PERFORMANCE

Camoplast becoming Camso snowmobile tracks are precision-engineered to deliver exactly the kind of performance you're looking for. Every track our engineers create is designed for optimized weight, traction, strength, flotation, and even aerodynamics—not to mention affordability, longevity, and sheer fun! Over 90% of all new sleds built are equipped with Camoplast tracks. Snowmobile manufacturers do a great job selecting tracks for their machines, and stock tracks are fine for general riding. But what if you're looking to put a newer track on an older machine to improve performance, or tweak the track on your new model to better suit your riding style? At Camoplast becoming Camso, we're constantly developing new designs to help you revive your ride and make the most out of winter!

WHATEVER YOUR STYLE, CAMSO HAS THE RIGHT TRACK FOR PEAK PERFORMANCE

TRAIL RIDER

You're an aggressive or power rider, someone who loves well-defined routes. For you, snow makes cruising better, whether you're riding on partially maintained surfaces, carving corners or flooring it on the straightaways.

- **Groomed snowmobile trails**
- **Ungroomed trails that are used enough to be compacted most or all of the time**
- **Bare or lightly covered ice with special traction challenges**

CROSS-COUNTRY RIDER

You prefer deeper, looser snow. Racking up the miles in the backcountry? Check. Half on-trail, half off? Check. After all, you can handle anything with control—and passion. Whatever the challenge, you're up for it.
For you, snow makes playing better.

- **Ditch lines**
- **Less-used and completely ungroomed trails**
- **Boondocking in remote areas with no trails**

MOUNTAIN RIDER

You relish any trip that involves high country open meadows or boondocking—and deep snow (or extremely deep snow) is the icing on the cake. Your ride makes your pulse pound. For you, snow makes riding better.

- **Deep powder snow with a light track for maximum traction and flotation**
- **High-altitude terrain**
- **Steep slopes**

Where do you fit in? Is speed a priority? Maybe you really want shorter acceleration and stopping distances. And what kind of handling do you want—nailed to the trail, or loose so you can slide the tail of the sled?
Are you a racer? Or do you use your machine for work?

TRACK PITCH / LENGTH 101: TECHNICAL ADVISER

With several different track pitches currently supplied on new snowmobiles, there is an increasing level of confusion about track pitch and length. Here is some information to assist you in determining track pitch and length.

DETERMINING TRACK PITCH

- Measure 10 pitches (the distance between 11 cross bars)
- Divide that measurement by 10
- If the 10 pitch distance measured is 25¼" the pitch is 2.52"
- If the 10 pitch distance measured is 30" the pitch is 3.0"
- If the 10 pitch distance measured is 28⅝" the pitch is 2.86"

DETERMINING TRACK LENGTH

- Count the number of crossbars on the track
- Multiply the number of crossbars times the pitch

Example: 54 pitches x 2.86" = 154.44" (this track is called 155 by one OEM and 154 by another OEM)

CLIPPING 101: TECHNICAL ADVISER

In addition to leading edge profile development and innovative and convenient functionality, Camoplast's ongoing commitment to offering the best snowmobile track technology also includes the use of various clip configurations. By using various window and clipping configurations it enables your track to maximize performance and efficiencies on the snow. Here is some info to assist you on understanding the benefits of each application

FULLY CLIPPED

- All windows open - all pitches have clips
- Best for high speed applications
- Recommended for internal / external drive sprockets

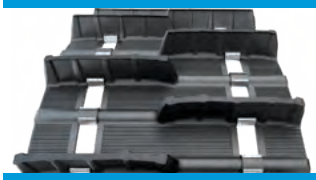
PACE 2

- All windows open - guide clip placed every 2nd pitch
- Weight savings for specific Mountain Models
- Compatible with internal / external drive sprockets

PACE 3

- All windows open - guide clip placed every 3rd pitch.
- 3 lb weight savings on 121' - 136" tracks
- Economical - less expensive than "Full" clip
- Universal - windows are open if clips need to be applied

EVERY 3RD (P2S1)



- Guide clip placed every 3rd pitch - windows "closed" between the non-clipped areas
- 3 lb weight savings on 121" - 136" tracks
- Economical - less expensive than "Full" clip tracks
- Recommended for on/off trail applications
- Not compatible with internal / external drive sprockets

RIDE YOUR WAY TO VICTORY

Whether it's Snocross, oval, drag, or hill cross, Camoplast digs deep and holds the line by delivering the most effective racing track technology anywhere.

CAMSO | ROAD FREE COMPANY

SNO X RACING – is an ISR approved track designed specifically for Mod Class SnoCross racing.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
15" x 120"	1.75"	2.86"	38 lbs	Fully	Racing 2-Ply	54-9293	$749.00
15" x 129"	1.75"	2.86"	42 lbs	Fully	Racing 2-Ply	54-9294	$799.00
15" x 137"	1.75"	2.86"	46 lbs	Fully	Racing 2-Ply	54-9332	$829.00
15" x 146"	1.75"	2.86"	49 lbs	Fully	Racing 2-Ply	54-9333	$859.00

BACK COUNTRY RACING – are ISR approved Back Country tracks in the 2.52" pitch for Mod Class SnoCross and HillCross racing.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
15" x 121"	1.75"	2.52"	40.5 lbs	Fully	Racing 2-Ply	54-9067	$719.00
15" x 136"	1.75"	2.52"	44 lbs	Fully	Racing 2-Ply	54-9205	$799.00
15" x 144"	1.75"	2.52"	46 lbs	Fully	Racing 2-Ply	54-9206	$889.00

ASPHALT DRAG – tracks are a slick, no profile, soft rubber compound for ultimate traction on pavement.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
10.625" x 121"	.625"	2.52"	33 lbs	No Holes/Clips	Racing 2-Ply	54-9895	$809.00
10.625" x 128"	.625"	2.52"	35 lbs	No Holes/Clips	Racing 2-Ply	54-9896	$829.00
10.625" x 136"	.625"	2.52"	37 lbs	No Holes/Clips	Racing 2-Ply	54-9897	$899.00

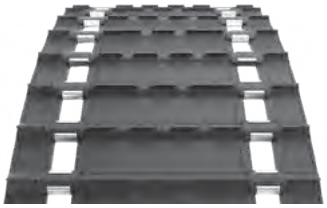
COBRA – is a highly aggressive with angled profiles for outstanding forward and lateral bite. Superior handing and acceleration in a wide variety of snow conditions.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
15" x 154"	1.60"	2.86"	47	Fully	Racing 2-Ply	54-9355	$869.00

RIP SAW – is the next generation high performance trail track with cupped lugs that give better acceleration in soft or loose snow without sacrificing top end speed or the ability to slide the back end.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
15" x 129"	1.25"	2.86"	36	Fully	Racing 2-Ply	54-9358	$679.00

HACKSAW – is a Rip Saw derivative featuring crescent shaped profiles with recessed tips and cutting edges for hard packed snow. Excellent handling characteristics.



Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
14" x 144"	1.00"	2.52"	38	Fully	Racing 2-Ply	54-9359	$789.00

HACKSAW ICE OVAL – is an ISR approved Hack Saw track for Ice Oval and LeMans racing

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
14" x 121"	1.00"	2.52"	32 lbs	Fully	Racing 2-Ply	54-9239	$889.00

GRASS/ICE DRAG – are low profile tracks designed for maximum racing performance on grass and ice surfaces.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
13.5" x 116"	.725"	2.52"	27.5 lbs	Fully	Racing 2-Ply	54-9982	$919.00
13.5" x 128"	.525"	2.52"	33 lbs	Fully	Racing 2-Ply	54-9902	$829.00
13.5" x 136"	.525"	2.52"	29 lbs	No Hole/Clips	Racing 2-Ply	54-9929	$989.00
13.5" x 144"	.525"	2.52"	31 lbs	No Hole/Clips	Racing 2-Ply	54-9976	$1049.00
13.5" x 159"	.525"	2.52"	35 lbs	No Hole/Clips	Racing 2-Ply	54-9418	$1685.00
15" x 116"	.725"	2.52"	30.5	Fully	Racing 2-Ply	54-9995	$829.00
15" x 121"	.525"	2.52"	33 lbs	Fully	Racing 2-Ply	54-9811	$679.00
15" x 121"	.525"	2.52"	33 lbs	Fully	Racing 2-Ply	54-9812	$739.00
15" x 121"	.725"	2.52"	36 lbs	Fully	Racing 2-Ply	54-9997	$829.00

YOUTH RACING – Low profile drag racing design for the Yamaha SnScoot and Arctic Cat ZR 200

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#	List
14" x 93"	.500"	2.59"	16	Fully	Racing 2-Ply	54-9382	$419.00

CAMSO ROAD FREE COMPANY

GO HIGHER AND DEEPER WITH REAL POWER

Mountain riding demands superior traction for the sharp slopes and bottomless high country powder. And changing snow conditions throughout the riding season can dictate changing track needs, so precision track selection is critical:

- 2-inch & 2.25-inch lugs for moderate boondocking
- 2.5-inch & 3-inch lugs for steep and deep riding

Proven by over a decade of mountain performance, and backed by a full two-year warranty, Camoplast mountain tracks are engineered to perform in a wide variety of snow conditions from early season powder to late season hard-crusted snow pack.

CHALLENGER – is proven powder performance for a wide range of mountain snow conditions. The benchmark of mountain tracks.

54-9064, 54-9065, 54-9066

EPIC 280 –

Sets a new standard in deep snow mountain riding with its unique deep cup-shaped lug design. Its balanced 6-pitch lug sequence provides more track speed in deep powder and excellent floatation on the most challenging conditions. Turn your mountain adventure into an Epic ride.

Track Dimensions ‡	Profile Height	Drive Pitch ‡	Weight	Clipped	Description	WPS#		List
15" x 153"	2.80"	3.00"	43 lbs	Pace 2	Mountain 1-Ply	54-9409	†	$1119.00
15" x 156"	2.80"	3.00"	44 lbs	Pace 2	Mountain 1-Ply	54-9408	†	$1139.00
15" x 162"	2.80"	3.00"	46 lbs	Pace 2	Mountain 1-Ply	54-9407	†	$1189.00

CONQUER 260 / 280 –

The industry's first 2.8" lug height balances deep snow performance with handling and agility. Reinforced lug support columns allow for calculated lug cup and flex formation provide immediate lift for unmatched flotation and forward traction in all snow types. Now also available in 2.6" lug height.

54-9337

STUD APPLICATION TIPS

RUBBER TRACK WITH STUD

- This guide should help decide the best stud for your application
- All recommended Woody's® studs are listed by Woody's® part number, refer to the next pages for WPS part numbers
- All Woody's® stud sizes are measured from the top of the Digger® support plate to the tip of the stud
- Review the snowmobile and track manufacturer's studding recommendation in your owner's manual. You may void your warranty if their recommendations are not followed. Consult your snowmobile dealer about added tunnel protection

* Woody's® recommends .250" to .375" to be optimum penetration. Deviating from this recommendation can result in premature track wear, tunnel damage, and/ or loss of control

TRAIL STUDS

GRAND MASTER® KIT

- Complete stud kit for 1.25" lug single-ply tracks
- Includes 90 1.325" Grand Master® studs, 5/16" round Grand Digger® support plates, and Short Big Nuts
- Popular kit for many late model machines with 128/129" tracks

Height	Thread	Woody's p/n	90/pk	List
1.325"	5/16"	GMPK-1325	**18-32040-90**	**$330.98**

GRAND MASTER®

- Designed for single ply tracks
- Exact same stud as Ski-Doo Phantom Stud
- Larger 1.200" diameter head
- 5/16" shank with 60° carbide tip
- Includes studs and lock nuts
- 1.325" & 1.450" studs include Woody's ALN2-4500 Big Nuts
- 1.575" studs include Woody's ALN2-7000 Big Nuts
- 6 Packs now available, when combined with current package quantities, any track length/ recommended studding patterns and quantities can be reached

GRAND MASTER® PRO™

- Carbon steel stud with 60° sharpened carbide tip for single-ply tracks and support plates
- A 1.200" head makes a larger anchor to distribute pressure over a wider area on the single ply track
- This is the same stud as BRP's Phantom Sharp Stud
- This stud cannot be used in a traditional 2 ply track
- The 2.52 pitch single ply track cannot accommodate the Round Grand Digger support plate. Use the Square and Double Grand Digger support plates
- 1.325" & 1.450" studs include Woody's ALN2-4500 Big Nuts
- 1.575" studs include Woody's ALN2-7000 Big Nuts

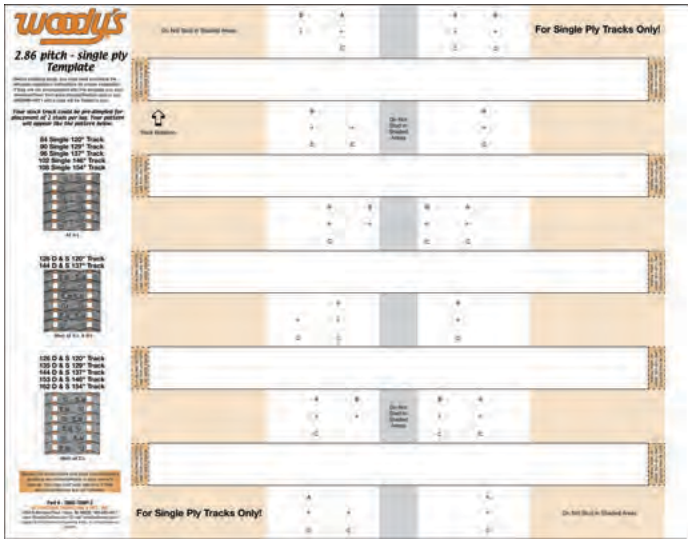
18-3960	$27.98

STUDDING TEMPLATES

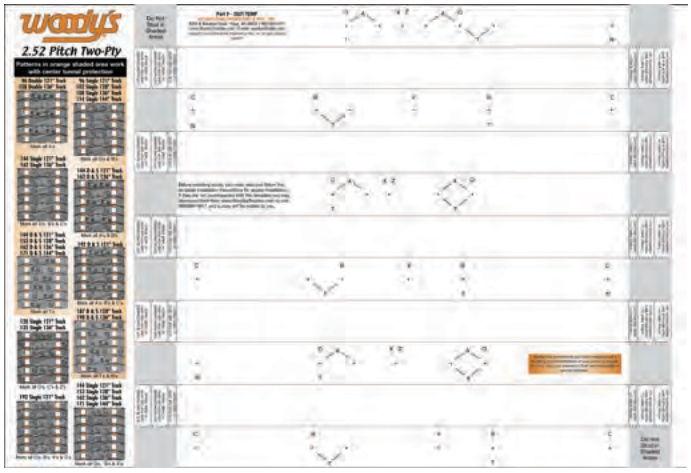


NEW

2.86" PITCH SINGLE PLY TEMPLATE

- Updated template for 2.86" pitch 2-ply tracks
- Works with 15" and 16" wide tracks
- Accommodates track lengths 120", 129", 137", 146", 154"
- Multiple configurations and stud quantities

WPS#	List
18-3953	$23.98



NEW

2.86" PITCH SINGLE PLY STUD TEMPLATE

- Updated template for 2.86" pitch single-ply tracks
- Accommodates 15" and 16" track widths
- Applications for 120", 129", and 137" track length
- Includes 12 different studding options

WPS#	List
18-3963	$23.98

NEW

2.52" PITCH 2-PLY STUD TEMPLATE

- Updated template for 2.52" 2-ply tracks
- Patterns for 13.5", 14", 15", and 16" track widths
- Accommodates track lengths 121", 128", 136", and 144"
- Multiple patterns for more studding options

WPS#	List
18-3964	$23.98

STUD INSTALLATION TOOL

- Great tool for installing and removing push-through studs
- Aluminum handle rests in the palm of your hand so you can apply pressure needed to keep the stud from rotating
- Each tool includes 2 hex bits

WPS#	List
18-3982	$31.98

UNIVERSAL TRACK DRILL

- Essential for snowmobile track studding
- Hollow tool drills a clean hole through rubber tracks for all stud sizes

WPS#	List
18-3983	$13.49

T-NUT PULLER

- Reduces time required to stud track
- Fits 3/8" square drives/drills and is available for 1/4"-20 t-nuts

Description	WPS#	List
1/4" x 20 Thread	18-1080	$21.98

TRACK MARKER

- For use with Woody's studding templates
- Leaves a white mark to indicate stud placement
- Check your completed pattern before drilling holes

WPS#	List
18-3980	$9.49

INDEXING TOOL FOR SQUARE SUPPORT PLATES

- Aligns support plates with track edges to increase longevity of the stud and support plate
- Parallel edges are essential to proper stud performance
- Fits 3/8" ratchet drive

Description	WPS#	List
For 5/16" I.D. plates	18-3986	$21.98

GRINDING WHEELS

- 18-3987 is a special grade wheel designed for both studs and carbides
- 18-3987 will maintain sharp edges and points or alter stud point angles
- 18-3988 will sharpen carbides while on the ski
- Not for general grinding and follow manufacturers safety instructions on grinder

Description	Color	WPS#	List
1" x 6" Stud/ Carbide Wheel (includes arbor shim)	Green	18-3987	$52.98
4 1/2" Carbide Wheel	Black	18-3988	$8.49

TRACK TENSION TOOL

- Optimize performance and prolong the life of your track with regular use of this handy tool
- Set the weight and measure the tension of your track
- Follow recommendation in your snowmobile owner's manual

WPS#	List
18-3985	$55.98

STUD SHARPENING TOOL

- Steel stud sharpener (not intended for carbide use)
- Fits 3/8" drill
- Sharpens in 30° angle

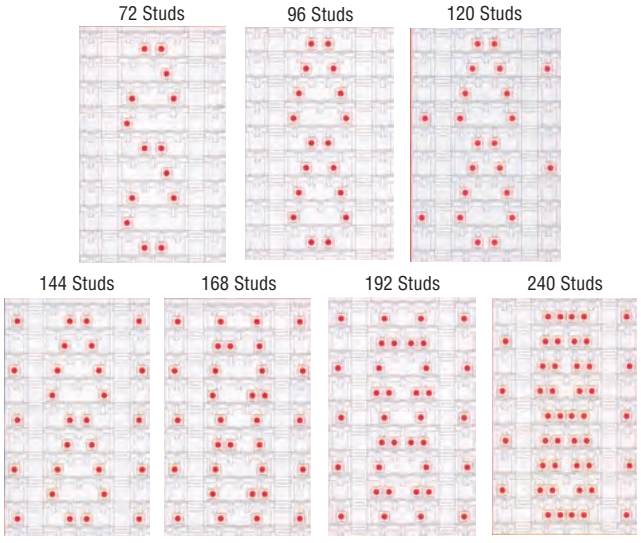
WPS#	List
18-3981	$118.98

TRACTION BY

STUD BOY

TRACTION AND CONTROL GUIDE

STUD QUANTITIES



Illustrations below are for reference only. May not apply to the make and model of your snowmobile.
How many studs you should install:
A good starting point is 1-1/2 studs per horsepower. When using this formula as a starting point, you can increase or decrease the number of studs to fit a pattern that best suits your riding style. We strongly suggest that you use not less than one stud per horsepower at any time. However, be careful not to over-stud. Over-studding will allow less penetration, resulting in a loss of traction. Also, if you over-stud you may lose the ability to turn.

Recommended Stud Quantities

Snowmobile Horsepower	Traction for Trail riding	Agg. trail, snow-cross or X-country	Drag racing Ice or Grass	Oval Racing
0-60	72	72-96	96	96-120
60-75	72	96*	120	144
75-100	96	120	144	168
100-120	120	144	168-192	192
120-140	144	168-192	192	240
130-170	192	240	240	336

***Note**: Snow-cross rules dictate 96 studs in the center of the track.

RECOMMENDED STUD PATTERNS

STUD INSTALLATION

To ensure minimal stud loss, check for studs that have loosened after each outing.
1. Use Stud Boy's studding template, paint marker and instructions and transfer the pattern of your choice on the track.
2. With a sharp Stud Boy track hole cutter, drill the pattern you marked on the track during step 1. Be sure to hold your cutter straight and watch while drilling to avoid damage to the idler wheels or other suspension components.

STUD LENGTH

Trail riders should use a stud that is no more than 3/8" (.375") taller than the tallest part of your track. While some people use longer studs in trail and racing applications, you must take special precautions to ensure that you will not damage your sled or the traction products. Be sure to check your installation for proper protection of the tunnel, tunnel protectors and heat exchangers.
FORMULA: T-nut Studs - Stud length + Backer plate (steel .190" or alum. .225") + Track deflection (.045") - Track lug height = Effective stud length. Example: .875" + .225" +.45" - .725" = .420" effective stud length.
Push-through Studs - Stud length + Backer plate (.190") + Track deflection (.045") - Track lug height = Effective stud length. Example: .75" + .19" + .045" + .725" = .385" effective stud length.

PUSH-THROUGH STUDS

Start with Steps 1 and 2 above.
3. Position the stud into the hole in your track from the inside of the track.
4. Install the backer plate and lock nut onto the installed stud (Do not use Loctite™ when using nylon lock nuts).
5. Tighten the stud assembly using a deep well socket and allen wrench until the stud and backer plate bottom out against each other. Don't over tighten the lock nut. Be sure to align your backer plate with track lug.

T-NUT STUDS

Start with Steps 1 and 2 above.
3. Push a T-nut puller through hole from the outside of the track.
4. Thread a T-nut onto the T-nut puller and seat into the track.
5. Reverse your installation tool and remove T-nut puller from the T-nut while maintaining pressure on T-nut to keep it in the track.
6. Position backer plate onto stud. Put a drop of thread locker on the T-nut threads and stud threads. Be sure to align your backer plate with track lug.
7. Torque stud to 80 to 100 inch-lbs. and let thread locker dry for 24 hours at room temperature.

POWER POINT PLUS CARBIDE STUDS

- Designed for Camoplast single ply tracks as well as the Ski Doo XP/ XS chassis with single ply tracks
- "Track Trapping" design features a 60° carbide tip for aggressive penetration
- Chamfered head design reduces vibration and idler wheel wear
- Use only with Power Plate Plus and Super-Lite Plus Series Backers
- PRO SERIES available in 1.375" - 1.875", they come without nuts; these are the best recommendation for Super-Lite Pro Series backers

POWER TOWER LOCKING NUTS						
.500”		2438	**18-33928**	**$12.95**	**18-33931**	**$47.95**

- Designed for the hard core lake racer, not recommended for general trail use
- Unique thin profile, light-weight and durable design has a tapered tip for better penetration
- 1” diameter head size for support
- “Track Trapping” design with shoulder to prevent over tightening
- Includes lock nuts, .500” Power Tower nuts included with 1.625” and 1.875” studs
- .500” Power Tower Support Nut highly recommended for proper performance of stud

ASSASSINS IMPROVED DRAG STUDS

Stud Length	For Track Height	Stud Boy P/N	48/pk	List
1.080”	.88”-1.00”	2234	**18-33070**	**$124.95**
1.200”	1.00”-1.25”	2235	**18-33071**	**$124.95**

1.875”	1.75”	2497	**18-33075**	**$124.95**

- Recommended for competition use, ice and grass drags
- Features a flat "pushing" surface for great launch off the line
- "Track Trapping" design provides great support with 5/16" tapered shank for superior rigidity
- Includes locking nuts
- If using Power Tower nuts, use only the .50" nut
- Smaller 2-ply head but can be used with larger single ply backers

CATAPULT STUDS

- Offers superior traction, flat pushing surface will launch off the line
- 1.200” height only offered by Stud Boy, preferred use in Grass and Ice drags as well as outlaw sleds
- Great for drag racers looking for the holeshot
- Best combination of penetration and bite available for competition
- Gains the advantage of a “push through” stud with the lightweight performance of the t-nut style stud
- Uses “T-Nut” style support nut

Stud Length	Recommendation	Stud Boy P/N	48/pk	List
1.08” x 7mm	.525” And Up/ Speed Tracks	2031	**18-33049**	**$89.95**

T-NUT				
7MM		2020	**18-33924**	**$24.95**

ICE PIXX

- Perfect choice for vintage racers
- Excellent performance on clean, hard, icy conditions
- Slender performance profile with 30° point makes the Ice Pixx a lightweight stud with outstanding penetration
- T-Nut style support nuts recommended
- .700" and .930" preferred by vintage and F500 racing
- .820" preferred by oval sprint in the Camoplast speed tracks

Stud Length	Recommendation	Stud Boy P/N	48/pk	List
.700"	Vintage/ F500	2468	**18-33055**	**$61.95**

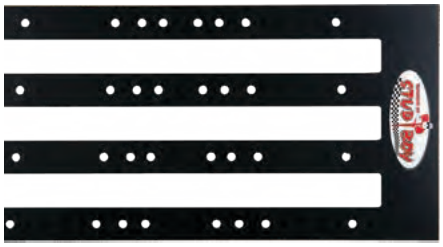
T-NUT				
1/4" X 20		2059	**18-33927**	**$24.95**

KWIK PIXX IMPROVED STUDS

- The Racers choice for push-through studs
- Larger .875" head features Stud Boy's "Track Trapping" design providing greater support
- 5/16" shank size with a 30° tip for outstanding penetration
- Includes standard locking nuts

Stud Length	For Track Height	Stud Boy P/N	48/pk	List
1.08"	.88"-1.00"	2237	**18-33067**	**$104.95**
1.20"	1.00"	2238	**18-33068**	**$104.95**



STUD SUPPORT NUTS

- Power Tower Locking nuts offer extra support to eliminate stud bending and breaking without additional weight
- .50" Power Tower nuts recommended for studs less than 1.50" in height
- .75" Power Tower nuts recommended for studs 1.50" and taller
- Lightweight yet durable aluminum construction
- T-Nuts recommended for Ice-Pixx and Catapult studs

Backer Only

POWER PLATE ROUND BACKERS

- 5/16” round backer plate
- 1.455” diameter accommodates single and 2-ply tracks
- One backer designed for multiple tracks
- Lightweight durable construction

Type	Stud Boy P/N	24/pk	List	84/pk	List	96/pk	List	144/pk	List	1000/pk	List
Single	2554	18-33950	$15.95	18-33952	$56.95	18-33953	$63.95	18-33954	$94.95	18-33955	$599.95

POWER PLATE PLUS BACKERS

- Designed specifically for the Power Point Plus carbide studs
- Works for Arctic Cat and Ski Doo XP chassis with Camoplast single ply tracks
- Utilizes the best benefits from square and round backer plates
- Engineered to reduce wear and tear on tracks
- Lightweight and durable shape for increased stud support

Type	Stud Boy P/N	24/pk	List	48/pk	List	84/pk	List	96/pk	List	144/pk	List
Single	2439	18-33906	$19.95			18-33916	$59.95	18-33926	$69.95	18-33936	$107.95
Double	2499	18-33907	$39.95	18-33917	$79.95						

POWER PLATE 5/16" BACKERS

- Innovative shape combines the best benefits of square and round backer plates
- Virtually unbendable
- With an added radial lobe to the 1 1/8” backer, stud support and rigidity is greatly increased
- By decreasing the weakest flat corner area of the square backer, Stud Boy has reduced unnecessary weight and bending of the corners
- Super strong design decreases wear and tear on the track of the machine
- Available in single backers and double backers

Type	Stud Boy P/N	24/pk	List	48/pk	List	96/pk	List	144/pk	List
Single	2193	18-33900	$16.95			18-33910	$59.95	18-33915	$87.95

PRO SERIES BACKER INSTALLATION TOOL

- Designed to hold the single Pro Series Backers while installing studs
- Allows you to safetly apply pressure to the backer and also keep the backer oriented for optimum results
- Helps when applying pressure to start both studs in the backer on Pro Series Double Backers

WPS#	List
18-33991	$32.95

SUPER LITE PRO SERIES BACKERS

- The latest in backer plate technology
- Take traction and stud support to a new level
- Designed for the rider who is looking for lightweight stud support
- Offers the lightest weight and best traction available from a backer plate
- Available in both single and double configurations
- Single and double backers available for both single ply and 2-ply tracks
- Double backers for single ply tracks may also be used in 2-ply tracks with standard heads for additional traction
- Use with all push through style studs, do not use T-nut style studs
- For ease of installation, use Stud Boy's new Pro Series Backer Installation Tool (p/n 18-33991)

Footwear	8 - 10 Per Foot		
	1 - 25 Pack		

TWIST™ GRIP-IT™

- Shortest in the Twist™ line
- Excellent for adding traction to footwear
- May be used in any rubber sole or lug 12mm+
- Made with high grade steel and carbide
- Carbide insert provides durable reliable traction
- Thread is extra coarse to keep screws secure
- Can be installed with Woody's Twist installation tool

Overall Length	Installed Depth	Lug Height Range	Woody's #	25/pk	List	100/pk	List

ATTACK™

- Works great for ATV/UTV's, tractor, forklift, or loader where extra traction and maneuverability is needed
- Zinc coated high grade carbon steel hex screw
- Brazed carbide insert for durable lasting performance
- Can be installed and removed with Woody's screw installation tool and power tool

BOSS™

- Perfect for long fitting rubber lugs
- Sturdy construction will hold up to the harshest conditions
- Works great for snowmobiles, snow removal, construction, excavation, and agricultural applications
- Provides traction to prevent slipping and spinning on ice, snow, or mud
- Zinc coated high grade carbon steel
- Large pointed carbide insert for extra traction
- Extremely coarse threads with serrations to prevent screws from backing out
- Can be installed and removed with Woody's screw installation tool and power tool

Note: Adequate clearance in bulkhead must be verified. Tunnel protection will be required.

- Minimal weight increase for maximum traction advantage
- Multiple traction edges provide optimal grip and added control over round type heads
- 3/8" screws work well for footwear traction
- 3/8" and 1/2" screws work well for "fat tire" bicycles with addition of a tire/wheel liner

ICE MASTER CARBIDE ICE SCREWS

Check for Special Dealer Pricing

- Solid 70° carbide head provides longer wear and superior penetration
- Self-tapping design is easy to install, easy to remove and leaves a tiny hole
- Works great on snowmobile tracks and .50" height recommended for atv/utv tires
- No special tools required, WPS P/N 18-30009 recommended for easier installation

LIGHTWEIGHT DRIVESHAFT AND EXVOLUTE SPROCKETS

NEW

- Direct replacement shaft.is 3 lbs lighter than the stock
- Great to drag racing, mountain climbing, trail riding, where ever you ride
- Less rotational weight is more instant power to your track
- 5 support webs instead of 4 like the OEM M 8000 shaft - 20% stronger
- No extra nuts or spacers are needed like the OEM M 8000 shaft
- Hardcoat anodized, so it even looks like a stock steel shaft

** Sleeve Tool required to install No Slip Sprockets on Ski-Doo splined shafts

Note: Some models will require that the front of the slide rails be shortened for clearance. We recommend that the skid frame be installed without the springs and cycled to check rail tip to sprocket clearance. If rails must be shortened, Anti-stab kit must be installed (see page 375)

SLEEVE TOOL FOR SKI-DOO SPLINED SHAFTS

- Required to install No Slip Sprockets on Ski-Doo splined shafts
- For all '08 and newer XP, XR, XM and XS chassis models

Description	WPS#	List
Sleeve Tool	**54-2499**	**$20.95**

EGT GAUGES

KOSO NORTH AMERICA

A Single

A Single with temperature warning activated

B Dual

B Dual with temperature warning activated

- Displays exhaust temperature
- Comes complete as a kit with probes and mounting hardware included
- Max temperature setting is adjustable and turns red when reached to warn you
- Simple and easy gauge installation

Meter / Mode	Specification
Temperature A.B	Display range: 100-1200°C (250-2100°F) Display Unit: 1°C (F°)
Over Temperature Warning Setting	Setting Range: 200-1000°C (392-1832°F) Setting Unit: 1°C (F°)
Top Temperature Record	Display Range: 100-1200°C (250-2100°F) Display Unit: 1°C (F°)
Display Internal	<0.5 Second
Effective Voltage	AC/DC 12V
Effective Temperature Range	-10-+60°C
Meter Standard	JIS D 0203
Meter Size	W124 x L58.5 x H22 MM
Meter Weight	Around 170 G

	Description	WPS#	List
A	Single EGT fast Reacting Probe Kit	**27-5711**	**$229.95**
B	Dual EGT Std Probe Kit	**27-5701**	**$319.95**
	Dual EGT Fast Reacting Probe Kit	**27-5710**	**$359.95**

DUAL EGT WITH RPM AND WATER TEMPERATURE

- New dual EGT gauge allows you to also monitor your rpm's and water temperature
- Includes settable warning and maximum recall functions for both EGT's, RPM, and water temps
- Has color changing and back lighted screen, which makes it easy to see the settable warnings
- Color changing warning can be set for each side independently
- This tool provides you with vital engine information to help prevent costly engine damage
- Complete kit includes EGT sensors, water temperature sensor, clamps, and brackets

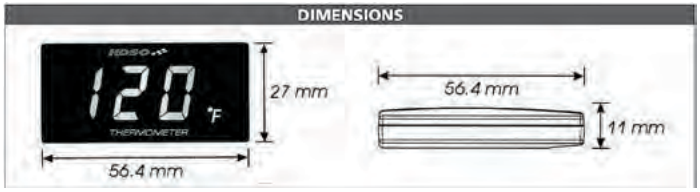
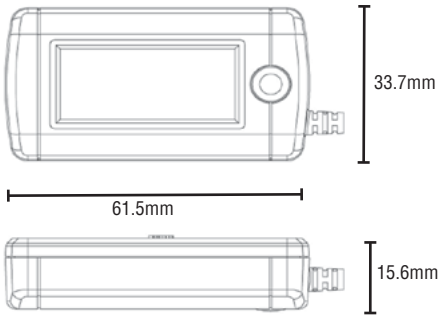
KOSO NORTH AMERICA

SUPER SLIM WATER TEMP GAUGE



OPTIONAL ULTRA SLIM MOUNTING BRACKET

- Ultra thin unit
- Blue back light
- Water temp sensor included



Description	WPS#	List
Temperature gauge	27-5747	$49.95
Ultra slim mounting bracket	27-5747M	$14.95
Replacement water temp sensor	27-5727	$12.95

LCD TEMPERATURE GAUGE

- Displays water or oil temperature from 32° to 302°
- Includes sending unit (1/8" pipe thread)
- Runs off of an internal battery, includes white LED backlight
- Can be used for cylinder head temperature (order optional sending unit)
- Reads in Fahrenheit and Celsius
- Order water temperature sensor hose adapter separately
- Records and keeps highest temp until reset

Description	WPS#	List
Temperature gauge 32° to 302°	27-5714	$79.95
Optional cylinder head sending unit (old black conn.)	27-5708	$20.95
Optional cylinder head sending unit (new white conn.)	27-57081	$29.95
Replacement temperature sensor (new white conn.)	27-57290	$21.95

AIR FUEL RATIO METERS

A. Narrow-Band:

- Displays air/fuel ratio
- Comes complete as a kit with mounting hardware and sensor

B. Wide-Band:

- This back lighted wide-band air/fuel ratio gauge will give you information on your engine to allow a more precise tuning. The programmable warning will tell you if your engine is running too lean or too rich. It is easy to install on either 2 or 4 stroke engines. Must purchase 2-stroke sensor adapter seperately, P/N 27-5721

Description		WPS#	List
2/4-Stroke Air fuel ratio gauge	Wide-band	27-5712	$339.95
2-stroke	Sensor adapter	27-5721	$39.95

See page 596 for replacement parts and water temperature sensor adapters

Speedometer Function

Session Record

KOSO NORTH AMERICA

GPS LAP TIMER NEW

- Perfect tool for drag racing, cross country, enduro, closed/ open course, track
- Gives precise and accurate reading without having to install different beacons around track
- Records up to 200 laps and displays best run, time difference between current and last
- Can also display speed, average speed, time/ distance and many other functions
- May also be used as a simple GPS speedometer due to speed/odometer functions
- Features a power-test function to record time/ distance, speed/distance
- Auto calculates track length after first lap
- DC 12V effective voltage
- Dimensions: 4.2” x 2.4” x 0.8”, Weight: 132g

WPS#	List
27-57030	$319.95

MINI 3 GAUGES

All gauges include any needed sensors and hardware, mounts sold separately.

A. AMP/VOLT

- For 12 volt DC systems
- Amp display range: 0 - 30 amps, 0.1 amp increments
- Volt display range: 6.0 - 19.9 volts, 0.1 volt increments
- Low and high voltage warning
- Dimensions: 60.5 mm x 30.5 mm x 12.3 mm

B. CLOCK/VOLT

- For 12 volt DC systems
- Volt display range: 6.0 - 19.9 volts, 0.1 volt increments
- Low and high voltage warning
- 24 hour clock
- Dimensions: 60 mm x 30 mm x 11.5 mm

C. AIR/FUEL RATIO

- For 12 volt DC systems
- Display range: 12.2 - 17.2, .01 increments
- Includes oxygen sensor and weld-in bung
- Dimensions: 60 mm x 30 mm x 11.5 mm

D. DUAL TEMPERATURE

- For 12 volt DC systems
- Dual liquid temperature reading (example: coolant/oil) in °F and °C
- High temperature warning
- Dimensions: 60 mm x 30 mm x 11.5 mm

E. AMBIENT AIR TEMPERATURE

- For 12 volt DC systems
- Display range: -22 ~ +120° F / -22° ~ +140° C
- Dimensions: 60 mm x 30 mm x 11.5 mm

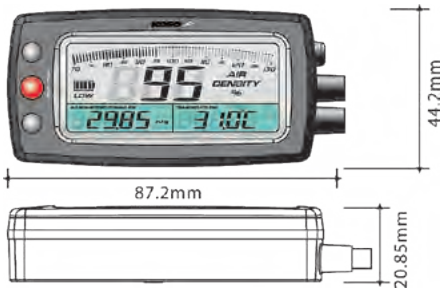
KOSO NORTH AMERICA

RX-2NS RPM DATA LOGGER

- Perfect meter for drag racers, oval racers, and hillclimbers
- Great for helping to find the right clutching or gear ratio
- 390 minutes of internal memory
- Can record up to 50 runs
- Heated screen for winter usage
- Displays RPM with a needle and or digitally
- Programmable shift light and piston setting makes it accessible to about any 2 or 4 stroke engine
- Optional external thumb switch available separately

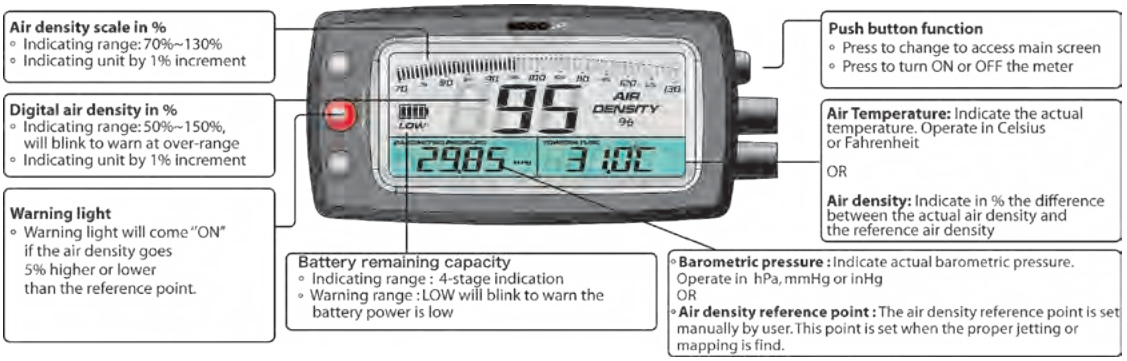


Description	WPS#	List
RPM data logger	27-5754	$359.95
Thumb switch fits 7/8" or 1"	27-5746	$19.95

AIR DENSITY METER

- Great tool for serious engine tuners
- Meter instantly tells you if temperature and atmospheric pressure changes so proper changes can be made
- Allows you to fine tune jetting or fuel mapping
- Warning light comes on if the air density changes 5% higher or lower than the reference point
- Optional RAD wheel jetting tool available separately to assist in proper jetting

Description	WPS#	List
Air density meter	27-5703	$194.95
RAD wheel jetting tool	27-5703T	$19.95
Optional mounting bracket	27-5703M	$13.95



Optional mounting bracket

Jetting tool

KOSO NORTH AMERICA

X-1 BOOST GAUGE

- Basic boost gauge for turbo and supercharged machines
- Settable warning from 1psi-30psi
- Display scale 15 or 30psi
- Programmable warning and recall functions
- Works on 12 volt AC/DC systems

WPS#	List
27-5756	$194.95

Function	Specifications
Display Scale	15 or 30 psi
Display Internal	0.5 psi
Peak Recall	For Positive or Negative psi
Warning Function	Screen Change from Blue to Amber
Settable Warning	1 psi to 30 psi
Power Required	AC/DC 12 Volt
Water Proof	JIS D 0203
Meter Size	W99.6 x L42 x H22.5MM
Meter Weight	Around 85 G

X-2 BOOST GAUGE WITH AIR/FUEL RATIO AND TEMPERATURE

- Multi-function unit for turbo and supercharger applications
- Displays boost, air/fuel ratio, and temperature
- Temperature function can be installed on either the cooling system or intercooler
- Settable warning features to save you from expensive motor repairs
- Made to resist cold, water, and dust
- Works on machines only with a 12 volt DC system

WPS#	List
27-5757	$499.95

Function	Specifications
Boost Display Scale	15 or 30 psi
Display internal	0.5 psi
Peak Recall	For Positive or Negative psi
Settable Warning	1 psi to 30 psi
Temperature Function Range	32°F to 392°F (0° to 200°C)
Alternative Function	°C or °F
Air/Fuel Ratio Display Range	10.0 to 24.0
Over Lean Setting	14.8 to 24
Over Rich Setting	14.6 to 10
Warning Function	Screen Change from Blue to Amber
Power Required	DC 12 V
Waterproof	JIS D 020352
Meter Size	W100 x L60 x H25MM
Meter Weight	Around 200 G

BDX BLACK DIAMOND XTREME

TURBO BOOST GAUGE

BDX TURBO BOOST GAUGE is designed to match the looks of an OEM instrument. Great for the individual who wants to fine-tune or measure the performance of their Turbo Sled.

WPS#	List
241-3195	$54.95

BILLET ADAPTOR & FUEL PRESSURE GAUGE

- Liquid filled precision pressure gauge
- Tank fitting allows gauge installation
- Fits M-Series, Crossfire, F-Series

TTO HOUR METER

TRAIL TECH

TTO is the smallest available meter at 50x25x14mm and has large, easy to read digits. Easily mount it to any surface using either the bolt-on (Screws not included) or peel-n-stick mounting options.

A. TTO TACH-HOUR METER

TTO digital tach/hour meter will work on any gasoline engine. This little gauge provides several useful features including a tachometer, a non-resettable hour meter, a resettable hour meter for maintenance, and a clock. There is an internal battery so there is no need to connect to power. Simply wrap a single wire around your spark plug and mount it wherever you desire.

B. TTO TEMPERATURE METER

TTO digital temperature gauge allows you to easily monitor your engine's temperature. Available for air cooled and water cooled applications. Features include current engine temp, hi temp warning, and a clock. There is an internal battery so there is no need to connect to power.

	Description	WPS #	List

HOUR/TACHOMETER METER

HOUR METER

- Track the service life of your vehicle- oil changes, valve adjustments, spark plus, etc.
- Easy installation- peel and stick, no wiring necessary, or attach with enclosed hardware
- No battery required- connects to spark plug wire
- Records and displays to 9,999.9 hours with automatic roll-over
- Hour glass symbol appears and flashes on/off to indicate counting time
- 100% epoxy encapsulated casing resists water
- One year warranty

Description	WPS#	List
Meter	27-2010	$34.95
Mount Kit	27-2012	$7.95

HOUR/TACH METER

- Has the same features as hour meter plus tachometer feature
- Works on any gas engine up to 2 cylinders and 8000 rpm
- Firing pattern 1 spark = 1 RPM
- Maximum RPMs 8000
- Suitable for all single and twin, two or four cycle gasoline engines operation within specified tachometer firing pattern

Description	WPS#	List
Meter	27-2011	$34.95
Mount Kit	27-2012	$7.95

HOURMETER

- Installs in minutes
- Monitors service intervals
- Works on any running motor
- Great for all outdoor recreational vehicles

Description	WPS#	List
Hourmeter	56-9202	$54.95
Billet Bracket	56-9205	$21.95

TEMPERATURE SENSOR RELOCATOR

- Helps retain full horsepower as the engine temp rises
- Eliminates the need to manipulate intake and/ or install different thermostat and housing
- Safely makes the sleds ecm think the sled is running cooler
- Helps fix the issue of the ecm prematurely adjusting timing to make the sled run cooler
- Includes everything needed for installation, heat shrink tubing, hose clamps, adapter, extension wires and plug for previous sensor location

YUASA BATTERY

GYZ SERIES AGM

- AGM separators with superior grid designs for extreme vibration resistance
- More active material surface area for enhanced performance and power
- Supplied “Factory Activated” (non-spillable)
- Highest CCA motorcycle battery (500 CCA on GYZ32HL)
- Large heavy-duty flush terminals with multiple connections (GYZ32HL, GYZ20HL, GYZ20H)
- Built in brass nuts (GYZ32HL, GYZ20H, GYZ20HL)
- 1 Year warranty

HIGH PERFORMANCE AGM

- All the features of a standard AGM battery plus increased power
- H Series: Increased power-up to 30% more cranking amps
- YTZ Series: Small size, lightweight, huge power
- 1 Year warranty

AGM MAINTENANCE FREE

- Maintenance Free – no need to add water, but periodic charging required when not in use
- Absorbed Glass Mat (AGM) Separators – an advanced battery technology that eliminates the need to ever add water
- Advanced lead-calcium technology – holds its specific gravity more than 3 times longer than conventional lead antimony batteries
- 1 Year warranty

YUMICRON/CONVENTIONAL

- Special thin separators – allow two extra plates per cell to be installed, for a 30% improvement in cranking performance
- Engineered to protect against corrosion, withstand vibration, and deliver high cranking power
- 6 volt and 12 volt varieties available
- 1 Year warranty
- Must purchase acid pack separately

FIRE POWER

CONVENTIONAL 6 AND 12 VOLT BATTERY KITS

- Meets or exceeds OEM specifications
- Extremely strong polypropylene cases to withstand impacts and vibration
- 1 year warranty on all batteries if properly pre-serviced and charged
- Anti-Sulfate treated for longer life
- Shelf-life almost infinite due to dry-charged plates
- Designed for higher cold cranking AMP capacity
- Comes with pre-measured acid pack

SEALED MAINTENANCE FREE 12 VOLT BATTERIES

- Absorbed glass mat (AGM) technology
- Sealed impact resistant polypropylene case
- A must for motorcycles and ATVs that require a sealed battery
- 1/2 the price of an OEM sealed battery
- Comes with pre-measured acid pack

FIRE POWER

SEALED FACTORY ACTIVATED BATTERIES

- Advanced absorbed glass mat technology
- Sealed maintenance free design
- 1 Year free replacement warranty
- Battery comes filled and pre-charged from the manufacturer (freshening charge recommended before installation)

1yr Warranty On All Fire Power Brand Batteries!

HardDrive
AMERICAN V-TWIN PRODUCTS

FACTORY ACTIVATED SEALED BATTERIES

- Designed for American V-Twin motorcycles
- Heavy duty brass terminals
- Activated and sealed at the factory (freshening charge is recommended prior to installation)
- Calcium alloy technology: Improves cranking power and helps give the battery longer life
- Valve regulated lead acid design: Sealed non-spillable design eliminates leakage
- Safety valve flame arrestor: Safely regulates internal pressure
- Tight-pack absorbed glass mat separators: Absorbs acid & reduces damage due to vibration
- Spill-proof sealed battery: Sonically sealed cover allows for angled battery mounting if needed for more mounting options
- One Year Warranty

Batteries must be slow charged for a minimum of 12-24 hours before use to avoid damage.

@ Must be mounted in upright position
* Yumicron CX

DIGITAL BATTERY TESTER

- Tests cold cranking amps (CCA) on all 12 volt lead acid, lead gel and lithium batteries
- Works with powersport and automotive batteries
- 2000 CCA test capacity
- Shows, voltage, state of charge and state of health of the battery
- Adjustable backlight display, can be used in varying light conditions
- Also capable of testing most automotive and some powersport vehicle charging systems*
- Includes storage case

CCA capacity of the battery will need to be known for proper testing, CCA list is included with the instructions. Contact WPS if your powersport battery is not listed.

*The primary intention for this tester is to analyze a batteries condition, if it does not analyze a charging systems condition properly, it does not mean that the tester is at fault.

Description	WPS#	List
Digital Battery Tester	**490-9951**	**$199.95**

12 VOLT/2 AMP BATTERY CHARGER

Charges and maintains all 12 volt lead acid, gel and lithium iron phosphate (LiFePO4)/lithium ion polymer powersport batteries.

- CONSTANT CURRENT CHARGE - If the battery voltage is over 10 volts, the charger will deliver a 2 amp charge until the battery reaches 14.2 volts
- MAINTENANCE CHARGE - When the battery reaches 14.2 volts, the charger will automatically convert to maintenance mode. The charger will revert to charge mode when the voltage drops below a specified voltage
- LOW VOLTAGE RECOVERY - If battery voltage is below 8 volts, the charger will apply a .2 amp charge to recover the battery, once the battery reaches 8 volts, the charger will apply a .5 amp charge, at 10 volts a full 2 amp charge is applied until the battery is fully charged
- AUTOMATIC VERIFICATION STAGE - Charger automatically stops charging if the battery does not reach at least 10 volts after 2 hours of charging
- SAFETY - Power is not passed thru the charging leads unless they are connected to a battery
- LED indicator light shows charging status
- Includes heavy duty clamps and fused ring terminal SAE adapter

WPS#	List
490-9950	**$69.95**

6 AND 12 VOLT BATTERY CHARGER

- Converts from 6 to 12 volts at the flick of a switch
- Snap-cord style leads
- Economically priced

Description	WPS#	List
Charger	**56-1111**	**$28.95**
Replacement Battery Leads	**56-1110**	**$3.75**

YUASA BATTERY

12 VOLT 1 AMP BATTERY CHARGER

- 3 color LED displays battery charge status at a glance
- Automatically switches when battery is fully charged to maintenance mode
- 5 year limited warranty
- Includes ring and clamp style leads

Description	WPS#	List
12V 1 amp charger	49-1100	$42.95
Replacement ring leads	49-1602	$5.95

12 VOLT 3 AMP BATTERY CHARGER

- 2 independent charging stations
- Charges 6 volt & 12 volt batteries
- Automatic charging and maintenance maximizes battery life
- OEM-approved 5-stage charging algorithm saves time and energy
- Active desulfation to recover sulfated batteries, not for use with lithium batteries
- Defective battery detection to eliminate surprises
- 5 year limited warranty

Description	WPS#	List
12V 3 amp charger	49-1101	$68.95
Replacement ring leads	49-1602	$5.95

6/12 VOLT 2 AMP/2 BANK BATTERY CHARGER

- 2 independent charging stations
- Charges 6 volt & 12 volt batteries
- Automatic charging and maintenance maximizes battery life
- OEM-approved 5-stage charging algorithm saves time and energy
- Active desulfation to recover sulfated batteries, not for use with lithium batteries
- Defective battery detection to eliminate surprises
- 5 year limited warranty

Description	WPS#	List
2 Bank charger	49-1102	$109.95

10 BANK BATTERY MAINTAINER

- Maintain up to 10 batteries at one time
- 5-Stage maintenance/float charge
- Built-in timer to protect batteries
- Prequalification battery test
- Include 10-pack of 25” cables with alligator clamps
- 250 mA per channel

Description	WPS#	List
12V 10 bank maintainer	49-16013	$524.95

YUASA BATTERY

BATTERY TESTER WITH PRINTER

- Developed exclusively for lead acid powersports batteries
- Designed to test batteries with amp hour ratings between 2.3 and 32
- Determines battery health and charge status in seconds
- Single load, dynamic resistance technology minimizes battery drain during test
- Tests both charged and discharged batteries accurately
- Tester prints recommended actions
- Charging system check
- 1 year limited warranty

Includes battery tester, storage case, 2 rolls of printer paper and 4 AA batteries.

Description	WPS#	List
Battery tester w/printer	49-9995	$310.95
Repl. paper (2 rolls)	49-9996	$39.95

BATTERY TESTER

- Developed exclusively for powersports batteries
- Determines battery status in seconds without charging first
- Determines if the battery is good or bad and percent left

GET JUMP START PACK

- 4000 mAh battery provides 400 amps of peak power (200 amp starting), capable of starting most powersport vehicles
- Compact size - 6 1/16” x 3 1/16” x 5/8”, weighs just over 7 ounces (without cables)
- Smart jumper cables and built in jump pack protection guards against over-voltage and accidental reverse polarity hook-up
- 5 Volt/2.4 amp USB output port for charging cell phones and other personal electronic devices
- Built in LED flashlight
- Includes smart jumper cables and 3-in-one cable (micro USB/USB C and later iPhone) which allows for re-charging the jump pack and charging other devices
- 1 Year warranty, read and follow all instructions prior to use

Description	WPS#	List
Jump start pack	68-6980	$99.95
Replacement jumper cables	68-6990	$39.95

PLUS

SAFE, RELIABLE, TROUBLE FREE BATTERY CARE!

Developed to maintain batteries in vehicles not in constant use and stored over lengthy periods of time.

FULLY AUTOMATIC CHARGER

- Automatically switches after fully charging to storage charge; constantly monitors the battery without the damaging effects of trickle charging
- After a full charge is reached, the Battery Tender automatically converts to a float charger and monitors the battery at 13.6 volts
- Improved circuit design provides better absorption for sealed batteries
- Five year warranty

Description	WPS#	List
Standard Type	56-1130	$71.95
QUICK DISCONNECT LEADS		
Leads with Clamps black connector	56-1137	$7.50
Quick Disconnect Leads black connectors	56-1138	$7.50
12.5' Extension Lead	56-1142	$9.95
25' Extension Lead	56-1139	$14.25
Cigarette lighter adaptor	56-1141	$7.50

These chargers do NOT meet California/ Oregon appliance efficiency standards.

ALUMINUM CONSTRUCTION
Equipped with 6' power cord, 6" output cord with clamps, and 6" quick disconnect output cord.

MULTIPLE BANK PLUS

The multiple bank Battery Tender Charging Stations have two or four encased 1.25 amp battery chargers designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers. This charger will operate anywhere in the world!

- 2 or 4 independent charging stations
- 12 volts @ 1.25 amps per station
- Operates anywhere in the world, 100-240 VAC 50/60 Hz
- Microprocessor controlled constant current charging
- Reverse polarity protected, spark proof
- Perfect for all AGM (absorbed glass mat), sealed maintenance free and flooded batteries
- Complies with US and international safety standards (UL/CE)
- 2 year warranty

Description	WPS#	List
2 Station	56-1116	$134.95
4 Station	56-1134	$269.95
REPLACEMENT LEADS		
Leads with ring connector	56-1138	$7.50

25' extension lead	56-1139	$14.25

These chargers do NOT meet California/ Oregon appliance efficiency standards.

BATTERY MANAGEMENT SYSTEMS

- Charges/maintains up to 5 or 10 batteries simultaneously, 6 or 12 volts @ 4 amps
- AGM/Standard or GEL/Lithium 12V switchable
- To avoid dangerous dead-short sparking, microchip circuitry will not activate output voltage until clips are correctly connected to battery
- Maintains batteries at full charge
- 4 amps per output charging current
- Clamps included
- Safety timer: 25 hrs.
- AC power cord length: 6 ft. - 16 AWG
- DC output cord length: 10 in. - 16 AWG
- 3 Year limited warranty

Description	WPS#	List
5 Bank charger	56-1090	$684.95
10 Bank charger	56-1091	$834.95
Replacement clamps/ea	56-1137	$7.50

4 AMP SELECTABLE

The Battery Tender® 4 Amp Selectable is an automatic and easy to use battery charger that will keep your battery fully charged and ready to go when you are. Whether it is 6 or 12 volt AGM, Lead Acid or Lithium, the Battery Tender 4 Amp Selectable has the proper charge algorithm for charge and maintenance to ensure long term battery health.

- Selectable Battery Chemistry- has battery chemistry selection with proper charge algorithm for lead-acid, flooded or sealed maintenance free (AGM and gel cell), and Lithium batteries.
- 6/12 volt selectable
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float/ maintenance voltage after fully charging the battery
- If the battery voltage drops too far under load, full charger output power resumes
- Solid state two color LED indicates stage of charger
- Spark proof reverse polarity protected
- Meets California and Oregon appliance energy efficiency standards for battery charging systems
- 5 year warranty

Description	WPS#	List
6/12 Volt, 4 amp	**56-1120**	**$84.95**

1.25 AMP SELECTABLE

The Battery Tender® 1.25 Amp Selectable is a fully automatic battery charger that will keep your battery fully charged and ready to go when you are. With a 6 and 12 volt option, this charger has the proper charge algorithm for charge and maintenance to ensure long term battery health.

- 6 and 12 volt selectable
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float/ maintenance voltage after fully charging the battery
- If the battery voltage drops too far under load, full charger output power resumes
- Solid state two color LED indicates stage of charger
- Spark proof, reverse polarity protected
- Meets California and Oregon appliance energy efficiency standards for battery charging systems
- 5 year warranty

Description	WPS#	List
6/12 Volt, 1.25 amp	**56-1115**	**$74.95**

JUNIOR SELECTABLE

The Battery Tender® Junior Selectable is much more than a trickle charger. It has a brain. It's lightweight, compact, and fully automatic; very easy to use, especially in small spaces. It will keep your Lead Acid, AGM or Lithium battery fully charged so that it is ready to go when you are!

- Output: 12v @ 800mA
- Selectable Battery Chemistry- has battery chemistry selection with proper charge algorithm for lead-acid, flooded or sealed maintenance free (AGM and gel cell), and Lithium batteries
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode)
- Automatically switches to float/ maintenance voltage after fully charging the battery
- If the battery voltage drops too far under load, full charger output power resumes
- Solid state two color LED indicates stage of charger
- Spark proof, reverse polarity protected
- Meets California and Oregon appliance energy efficiency standards for battery charging systems
- 12' output cord
- 5 year warranty

Description	WPS#	List
Junior 12 volt, .8 amp	**56-1119**	**$44.95**

JUNIOR™

- Lightweight, compact in size ideal for those hard to fit spots
- Trickle charger with a brain will assure batteries are maintained after charging and always ready to go!
- Fully automatic two-stage lead-acid battery charger is perfect for all lead-acid, sealed maintenance free and gel cell batteries
- After reaching peak 14.4 VDC, charger automatically switches to 13.2 VDC float voltage
- When voltage drops below 12.6 VDC, charger resumes charging back to 14.4 VDC
- Solid state two color LED indicates state of charger
- 5 Year Warranty

These chargers do NOT meet California/ Oregon appliance efficiency standards.

BATTERY CHARGERS

- Smart, multi-step, fully automatic switch-mode battery charger/maintainer
- Automatically diagnosis, recovers, chargers and maintains acid, gel, and AGM batteries
- Perfect for Motorcycle, ATV, Jet Ski, and snowmobiles
- Designed for safety: reverse polarity, short circuit, open circuit, spark proof, overheat, overcurrent and overcharge
- Powered by NOCO's VosFX processor: the revolutionary smart processor utilizing sophisticated levels of intelligence to alter the charging process
- Charges up to 2X faster than traditional linear chargers
- Uses 1/2 the power of standard chargers

A. G750

- 5 step / .75 amp charging
- Charges all 6 and 12 volt lead acid (1.2 - 30 amp hour) batteries

B. G1100

- 7 step / 1.1 amp charging
- Charges all 6 and 12 volt lead acid (2.2 - 40 amp hour) and 12 volt lithium batteries

C. G3500

- 8 step / 3.5 amp charging
- Charges all 6 and 12 volt lead acid (1.2 - 120 amp hour) and 12 volt lithium batteries

ANTIGRAVITY BATTERIES

BATTERY TRACKER BATTERY MONITOR

The Antigravity Battery Tracker is a Bluetooth monitoring system for your vehicle battery. Simple to install and track your battery's health and status.

- Easily monitor your battery status through your phone using Antigravity Battery Tracker free App
- Works on all automotive and powersport 12 volt lead acid and lithium batteries
- Android and iOS compatible
- Monitor voltage, starting performance and the charging system
- Immediate real-time data and history up to 31 days
- Sends alerts to your phone when within Bluetooth range
- App can monitor up to 5 batteries simultaneously (separate Battery Tracker monitor required for each battery)

Description	WPS#	List
Battery Tracker for lead acid batteries	58-7160	$35.99
Battery Tracker for lithium batteries	58-7161	$35.99

EMGO

JUMPER CABLES

Perfect for motorcycles, ATVs and electric start snowmobiles. This handy compact 10 gauge jumper cable set is a must for shop, traveling and home use.

STRAIGHTLINE PERFORMANCE NIGHT CRUISER LED LIGHTS

FOR STRAIGHTLINE FRONT BUMPERS

- V-Bar is Designed to be mounted on Straightline Performance front bumper
- Ski-doo 850 owners can also mount on top of the nose cone above the bumper
- Polaris AXYS owners can also mount LED below their headlight
- A must have for the night rider who wants a unique look to set their machine apart from the others
- Waterproof LEDs are built using the highest quality components including to the anodized housing
- The Night Cruiser is Plug and Play using OEM matched connectors for your machine
- Can be installed in under an hour, comes complete with mounting hardware and instructions
- All Night Cruiser Systems start with the V-bar which includes complete wiring harness and on/off switch

BRIGHT WHITE

- Extremely bright white LEDs provide additional styling and functionality for night riding

- 5-Way Splitter
- 2 x Mighty Mini LED
- 2 x 24” Multi-Colored LED

PIAA POWERSPORTS

OEM STYLE REPLACEMENT BULBS

GREATER PERFORMANCE: PIAA bulbs are engineered with XTRA Technology for greater performance per watt than any other bulb on the road. (XTRA is a term coined by PIAA to designate a high-efficiency bulb that is designed to produce greater light output than its rated power consumption, i.e. 55W = 85W of light output.) Greatly enhance your ability to see and be seen. A metal bond holds the heat-resistant glass tube securely to prevent cracks and leaks. A welded focus ring and one-piece filament support assures proper positioning.

BRILLIANT COLOR: Beam color affects visibility and eye strain over long periods. The brilliant white/blue light allows comfortable night driving over extended periods of time. PIAA bulbs are both a performance upgrade and an aesthetic enhancement. You will see the difference even in the daytime.

WARRANTY AND SUPPORT: PIAA is so confident in the durability and reliability of our products that we offer a no questions asked, replacement of any halogen bulb that fails within one year of purchase. PIAA bulbs are an investment in safety and peace of mind.

Super Plasma GT-X — The Super Plasma GT-X bulbs offer an unmatched combination of fashion and performance with a bluish-purple color very similar to H.I.D. and the closest yet to sunlight.

Xtreme White / Xtreme White Plus — The Xtreme White Series of bulbs have a cool white light output that gives the driver better color recognition on depth perception and better contrast than stock halogen lamps. The blue top coat on this series of bulbs adds a slight blue tint to a lamp with no loss of performance.

Intense White — The Intense White bulbs produce a radiant white beam and provide the best possible balance between performance and bulb life.

Star White — Star White bulbs are significantly whiter and brighter than stock halogen and will increase bulb performance without taxing your vehicle's electrical system.

Ion Crystal/Plasma Ion Yellow — Ion Crystal coating transforms white light into amber light without diminishing the strength of the beam. Ion Crystal technology allows as much as 95% of the light produced by the bulb to pass through, compared to as little as 65% through dyed glass. The long wavelength Plasma Ion beam reduces refraction for dramatically increased visibility in snow, rain and fog.

Introducing Night-Tech from PIAA —Through the use of a unique mix of gasses, new filament material, and coatings on the bulbs, these bulbs offer a color temperature in the 3600 Kelvin range for a whiter output than standard bulbs and retain a DOT/SAE approval. The unique dual band bulb coatings not only create a whiter light but a brighter, longer range (up to 35 meters) output when compared to other bulbs.
